BOYS CAMP TO CLOSE SUMMER WORK PROJECTED AT MEETING

Undertaking Started at Joint Session
of Rotary and Kiwanis Clubs
and Other Citizens

DR. E. L. HOUSE IS SPEAKER

Support is Pledged by Ministerial
Association, School Board and
Other Interests

TO INCLUDE WHOLE COUNTY

A. C. Cotton, Physical Director in
Schools, to be in Charge of
Boys' Work This Summer

A boys' camp to close the boys' work which will be done this summer under the direction of A. C. Cotton, physical director in the Rushville schools, was projected at a joint meeting at noon today of the Kiwanis and Rotary clubs, together with other citizens of the community, which was held at the Knights of Pythias building. The Pythian Sisters served the lunch.

A motion to adopt the report of the boys work committees of the two clubs, together with the recommendation of the directors of the two organizations, that such a camp be organized, was unanimously adopted following a short address by Dr. E. L. House, who has been lecturing here for the past ten days, and from a number of other citizens who endorsed the movement.

It was emphasized that the camp was not proposed as an undertaking of the two clubs, but the whole county, in which every citizen is expected to take a part and do his bit, whatever it may be, to insure the success of the camp.

Plans are practically mature for the establishment of the camp, though the site is indefinite, and it is not exactly determined what equipment will be needed. This will all be worked out shortly through committees so as to have the camp in operation by the last two weeks in July, as a climax to the work with boys which is to be done here the first two months of the summer school vacation by Mr. Cotton under the auspices of the Rushville board of education.

A report from the boys committee and the directors of the two clubs was made by W. A. Young and Dr. Frank H. Green, moved the adoption of the report and Supt. J. H. Schell seconded the motion. Short speeches endorsing the camp were made by the Rev. L. E. Brown, representing the churches and the Rushville Min-

MEN DECIDE TO CATCH UP ON THEIR KETCHUP

Newsom Pays a Fine For Assault
and Work of Setting Out 19,000
Tomato Plants is Under Way

OTHER CHARGES DISMISSED

The troubles existing between Alva Newsom and Elmer Brook, residents of near Carthage, terminated Monday afternoon in Justice Stech's court when Newsom pleaded guilty to a charge of assault and battery, and received a fine of \$1 and costs, and the two men decided to catch up on their few days' loss of planting 19,000 tomato plants for the canning factory at Carthage.

Charges of surety of peace and provoke were dismissed and the two charges against Mrs. Newsom also were dismissed by agreement, when the two men reached the conclusion that the tomato plants needed attention. The trouble which caused Newsom to attack Brook, is said to have been over the hiring of help to assist in setting out the plants.

According to Justice Stech the two men left the court in the best of spirits, and Newsom stated that he had paid one fine before Squire Hill at Carthage for the alleged assault, which according to law is void, because the prosecuting witness did not appear against him.

NEED OF MONEY IS EMPHASIZED

Rush County Centennial Finance
Committee Calls Attention to
Peoples' Responsibility

PLANS ARE TAKING SHAPE

Committee in Charge of Parade on
Thursday Afternoon, June 15,
Holds a Meeting

In a statement issued today, the finance committee of the Rush county centennial celebration, which will be held June 14 and 15, again emphasized the fact that the enterprise could not be conducted without money and that it is an event of such importance to the whole county that everyone in the county should be willing to do their part in supporting it.

The committee will begin soliciting in a few days, but in view of the fact that it will be impossible to see everyone, it is urgently requested that volunteer subscriptions be taken or sent to H. C. Flint, treasurer of the committee, at the Rush County National bank.

The plans for the centennial are gradually taking shape and the committees are all at work with the common aim of making the observance an epoch-making one in the annals of Rush county. Nothing is regarded of more importance than the work of the Home Coming Day committee, which hopes to send a personal invitation to every former resident of Rush county, no matter how long the stretch of time since they have called Rush county home.

The committee has pointed out repeatedly that the best results can not be obtained without the fullest co-operation of all the people of Rush county. This co-operation consists in sending to the committee, P. O. Box 132, Rushville, Ind., the names and addresses of all persons who formerly lived in this county, and if possible giving the township in which they lived.

At the meeting of the parade committee Monday night, plans were outlined to make the parade on Thursday afternoon one of the most attractive features of the celebration. Frank McIlwaine is general chairman of the committee and three committees were selected to be responsible for the various sections. The committee also selected one chairman for each township, the chairman being authorized to select his own helpers.

TESTIFIE SHE SOLD MRS. CARL ARSENIC

Miss Rhoda Loehr, Greenfield Drug
Clerk, Witness For State in Mur-
der Trial Today

TO KILL CATS, MRS. CARL SAID

(By United Press)
Shelbyville, Ind., May 23—A girl drug clerk from Greenfield aided the state today in its efforts to convict Clara Gibson Carl of being a feminine bluebeard.

Miss Rhoda Loehr testified that on the last Saturday of July, 1921, shortly before her second husband died, Mrs. Carl bought some arsenic from her.

"She said that neighborhood cats had been stealing her chickens," Miss Loehr testified. "She said she wanted to kill the cats."

The bodies of Mrs. Carl's first and second husbands and the father of the latter were exhumed and they showed traces of arsenic in the stomachs and intestines.

Robert Gibson, the first husband, Frank Carl, the second, and Alonzo Carl, father of Frank, all died of similar causes. Their sickness in each case was diagnosed as kidney and bladder trouble and the similarity started an investigation.

A grand jury indictment charges the woman with murdering the two Carls after she had married them under the impression she was entering a wealthy family and then was disappointed in finding their estates were small.

ALL EYES TURNED TOWARDS INDIANA

Nation Listens For Keynote Address
to be Delivered by Senator James
E. Watson Wednesday.

SUBMITTED TO PRESIDENT

Will Sound Basic Principles Upon
Which Republicans Will Seek
to Retain Majority in Congress

Candidates To Be Named

Candidates standing for nomination at Republican State Convention:

Secretary of State—Ed Jackson.

Auditor—William G. Oliver of Franklin.

Treasurer—Ora Davies of Kokomo.

Superintendent of Public Instruction—Ben Barris of Washington.

Clerk of Supreme and Appellate Courts—Patrick J. Lynch of Indianapolis (incumbent) and Henry J. Roberts of Carmel.

Judge of Supreme Court—David Myers of Greensburg.

Judges of Appellate Court—Charles Remy of Indianapolis; Solon Enlow of Danville; Willis C. McMahan of Crown Point and Alonzo Nichols of Winchester.

All candidates are unopposed except Patrick J. Lynch. They are all incumbents, except Lynch's opponent, Henry J. Roberts.

By FRED G. JOHNSTON
(U. P. Staff Correspondent)

Indianapolis, Ind., May 23—The nation again turned its political ear toward Indiana today and listened for the republican keynote which Senator James E. Watson will sound before the state convention Wednesday.

Watson's speech will be the first important political pronouncement in America's congressional and senatorial election campaign.

It will apply directly to the senatorial fight in Indiana between Albert J. Beveridge, republican, and Samuel M. Ralston, democrat, and to the congressional races in the state.

Indirectly, however, it will sound the basic principles upon which the republicans will seek to retain their majority in both branches of congress through elections next fall. It will determine the complexion of republican campaigns in every state in the union so far as national issues are concerned.

The speech has been prepared with great care and with a full sense of

COLUMBUS PASTOR DELIVERS ADDRESS

W. H. Book Speaks at Commence-
ment of High School and Eighth
Grade Graduates at Fairview

COLE'S ORCHESTRA PLAYS

The Rev. W. H. Book, pastor of the Tabernacle Christian church of Columbus, Ind., delivered the combined commencement address of the senior class and eighth year graduates of the Fairview school, Monday evening, in the auditorium of the school building. The Homer Cole orchestra of the Main Street Christian church of this city, furnished the music for the occasion.

The high school graduates were John Baker, John W. Boyd, Roy Kramer, George Cruce, Theodore Custer, Augustus Fry, Esther Groce, Gladys Groves, Frances McCrory, Almer Parker, Gleta Reed, Harry Rea, Herbert Saxon, Lillie Smith, Florean Spurrier, Wanetta Smiley and Maxine Vandeventer.

The eighth year graduates are as follows: Mary Helen Saxon, Freda Banks, James Cooney, Grace Spurrier, Earl B. Ritter, May Miller, Neva Rich, Robert Cregar and Thelma Bradburn.

GRAND JURY CALLED TO REPORT FRIDAY

Nature of Their Investigation Has
Not Been Disclosed, But Session
May Be Short

\$50,000 ESTATE TO BE SOLD

The grand jury has been called to report for service on Friday morning, according to an order issued today by Judge Sparks, and the nature of their investigations has not been hinted. It is believed, however, that the body will be in session only one day, because the custom of meeting on Saturday is never followed here.

A civil suit involving the land left by Ella Macy, deceased, has been filed and action passed upon by the court. The suit, ex parte Mary Hill et al., was for the partition of real estate, and the court decided that the land could not be divided, and a sale has been ordered.

Elwood Macy and William Hinchshaw were appointed by the court to act as commissioners and sell the property, according to instructions laid down by the court. The two commissioners were placed under \$50,000 bond, which is the estimated amount of property involved in the estate left first by Martha C. Weeks, and later by Ella Macy, who expired last week in Oregon.

Orange M. E. Congregation Met in Wagon Shop After Organization 100 Years Ago

First Church Erected in 1838 and
Replaced by Present Building in
1872 at Cost of \$3,000. When
Pastor Started to Raise Remain-
der of Indebtedness and People
Began to Leave, He Locked the
Door and Was Successful.

A brief historical sketch of the hundred years history of the Orange M. E. church, describing the difficulties of the pioneers, was read at the centennial celebration held at the church Sunday by Mrs. Gus Bowen of Orange and is as follows:

The Methodist church at Orange had its origin in a class that was organized in 1822 at the home of Judge Gregg two miles west of Orange, by the Rev. John Havens.

The class consisted of Judge Gregg and wife, Samuel Rounds and wife, Noah Dawson and wife, Mrs. Sara George, Hugh Wilson, Thomas Dawson, John Merrick, Sr., and John Merrick, Jr.

The quarterage paid by the whole Connorsville circuit the first year was \$36.12½ of which the class at Orange paid \$2.12½. The pastor received \$31.87½ and the presiding elder \$4.25.

This class was on the Connorsville circuit until Columbia circuit was formed in 1851. For some time the meetings were conducted in the wagon shop of John Merrick and in 1838 the first house of worship was built. This building was used until 1872 when the present building was erected at a cost of \$3,000.

J. W. Lindale, who is ninety-two years old, was on the building committee and he and Basil Rhodes started out the first Monday in March to collect \$1,000 before the building could be commenced. They succeeded in raising this amount and another \$1,000 was raised at the dedication.

Dr. Andrus of Asbury University officiated at these exercises. A few years later the Rev. J. W. Mellender was pastor and one Sunday announced he would raise the remaining amount of indebtedness and some of the congregation began to leave. He walked back to the door, locked it, put the key in his pocket and raised the remainder of the debt.

In the history of the church over eighty ministers have preached from this place for when the circuit was so large two ministers had charge of the work. Seventeen different presiding elders have presided.

SAYS THAT NO MAN CAN HEAL HIMSELF

Dr. E. L. House Asserts, However,
That in Earnest Co-operation There
is Success to be Achieved

HOW TO TRAIN YOUR WILL

Speaker Declares Sin is Misdirection
of The Will—"The Psychology of Love" Tonight

Dr. E. L. House gave two strong addresses Monday to two fine audiences. That the lectures are gripping is seen in the fact that each day and night bring larger numbers to hear him. Tonight comes one of the great lectures of the series, "The Psychology of Love," which is said to be a wonderful address. Monday afternoon, Dr. House spoke on "How to Heal One's Self." He said:

"No man can heal himself, but in earnest co-operation there is a good success to be achieved. What is this cooperation? It demands knowledge. It is dangerous to move without knowledge. We must know about the mixing of foods, if we would be well. Ignorance may poison the system. It is important to know how to run an engine, it is more important to know how to run one's self. Science brings us the conscious and the subconscious realms of mind to help us get healing. The conscious mind directs and governs the subconscious mind. The first is the architect, the second is the builder. Through conscious direction the subconscious mind will change the chemistry of the body, eradicate disease, renew the tissues, and repair the wastes of weakness. The science of being, often shows that greater efficiency for healing can be found in the patient than in the doctor. Mental expectation and anticipation are involved in every form of treatment.

"How to heal one's self demands spiritual knowledge. The superconscious mind in you is the spirit, or God in you to help and lead you into spiritual attainments. Through the spirit mind God can enter your life to give you help. Mental healing is your own ability, giving you a certain restricted power that does remarkable things, but spiritual healing is having the All Power in you. Just as the light has back of it the power house, so back of you is God. God can be underneath our load and weaknesses and is able to give us help. How to heal one's self demands faith. First, get scientific faith; that which is born of knowledge. Remember that nature is working for your cure and that even the body makes anti-toxins that help out. Get spiritual faith. Lay hold of the facts in the Bible. "According to your faith be it unto you." Ask the Lord to beget within you greater faith, and it will come. Affirm your position in the Lord; it will help you. Be no bigot. Work with an honest physician who is trained in the knowledge of the body. Join hands with the osteopath and the chiropractor, for they often help nature. But never forget the changeless fact: "I am the Lord that healeth thee."

Last night he spoke on "How to Train Your Will." The speaker said that what a man chooses he is responsible for, and he is not responsible for what another may make him do. Sin is misdirection of the will, the choosing of a lower in the presence of a higher.

"Man needs an enlightened will so as to choose and will correctly," said Dr. House. "What is right must be the great aim of a life. You can develop a will as you can develop a body, or a mind. But there is no institution that teaches how to develop a will. Prof. James said he would rather have his boy have a strong will than to have a strong intellect without a good will. Often we need aroused will. Many have gifts within, but have not yet been aroused to the best of life. Look out for China when she gets her aroused will. She will take her place among the mighty nations of the earth then. A strong will is most essential, because one man can have a sick will as well as a sick body.

What I can do, I ought to do; What I ought to do, I can do; What I can do and ought to do, By the grace of God I will do.

"A focused will makes a fine patient."

LIVE STOCK FACTS

OAK LEAF POISONING DANGER

Most Fatal Cases Occur in Spring
When There is a Scarcity of
Green Forage.

(Prepared by the United States Department
of Agriculture.)

Oak leaves, if eaten continuously by cattle, produce a sickness which frequently proves fatal. Investigations conducted by specialists of the United States Department of Agriculture show. Most oak-leaf poisoning, the specialists say, occurs in the spring, for at that time there is a scarcity of green forage on many ranges and the craving which stock have for green

Where a Small Quantity of Alfalfa is
Fed in Connection With Oak Leaves
the Animals Are Not Injured.

food leads them to eat the leaves in excessive amounts. In order to cause sickness, however, oak leaves must be eaten almost exclusively. If eaten with other feed, the animals are not injured. It has been found experimentally that as small a quantity as 3 pounds daily of alfalfa hay fed in connection with oak leaves prevented poisoning.

Observations on the range and experimental feeding both show that some cattle may eat oak leaves for a long time with no definite bad effects, and some will even eat them exclusively, with no harm. Generally speaking, those that are injured show the results only after eating a considerable quantity through a rather prolonged period, usually from 10 to 35 days. The specialists point out that the oaks on many ranges furnish a most important element in summer feed when additional sources of forage are available, but they urge that care be exercised during the spring that cattle be not admitted to summer range at too early a date, for oak leaves are well advanced before the appearance of the grasses.

GOAT MEAT QUITE SUPERIOR

Most of Product Reaches Market as
Mutton and Is Distinguished by
Sweetness.

Goat meat is seldom found on the market as such, yet the average number of goats slaughtered each year from 1916 to 1920, inclusive, was 141,487. It is probable that most of this meat reaches the consumer as mutton, which it resembles closely, as there are few cities that require it to be marketed under its own name. In cities and towns adjacent to the range country, however, Angora wethers are freely marketed as such and the meat is consumed without discrimination by the buyer. When received in large numbers these wethers usually sell at about 60 per cent of the price paid for sheep wethers.

The reduced price of goat meat is doubtless attractive to the consumer, whether he knows what he is getting or thinks he is buying mutton. According to Farmers' Bulletin 1203, The Angora Goat, recently issued by the United States Department of Agriculture, goat meat is usually superior to mutton that can be bought at the same price. Some consumers say that they are able to distinguish it from lamb and mutton by a characteristic sweetness.

GIVE RAM RIGHT ATTENTION

During Breeding Season He Should
Have Supply of Grain and Ac-
cess to Good Pasture.

The ram needs grain for several weeks before and during the breeding season. At least a pound a day of equal parts of oats and bran should be fed, together with good quality alfalfa or clover hay. Do not keep him closely confined, but allow him access to pasture. Avoid heavy feeding of silage or roots during the breeding season.

Small Digestive Tract.

The digestive tract of the calf is comparatively small, therefore frequent feedings of small amounts during the first month is imperative.

Cattle and Sheep on Clover.

Cattle and sheep do well on clover pasture, but should not be turned in when hungry or while a dew is on.

Healthy Pigs on Clover.

Pigs on clover are healthy, and have good bone and constitution—points of special importance in breeding stock.

what it portends. It has been drafted in Washington and submitted to President Harding and republican party leaders.

Senator Watson gained the right to deliver it when he threw the republican senatorial nomination to Albert J. Beveridge instead of to his colleague, Senator Harry S. New, and thus won control of the state organization.

John T. Adams, republican national chairman, and Secretary George Lockwood will attend the convention. They probably will address the convention on its first day, when oratory and love feasting will be in order. Beveridge, Governor McCray, Watson and Mayor Lew Shank of Indianapolis will also be among the speakers.

NEED OF MONEY IS EMPHASIZED

Continued from Page One

The sectional chairmen named were: J. T. Arbuckle, historical section; Harold Pearce, industrial section, and M. S. Ball, fraternal section. The township chairmen appointed were as follows:

Noble, John F. McKee; Posey, Frank Lawrence; Richland, Charles Spencer; Orange, George Hardesty; Anderson, Edgar Thomas; Walker, Alba Hurst; Ripley, M. F. Lovett; Union, Will McMillin; Center, Guy McBride; Washington, Ed Aiken; Jackson, O. M. Siler; Rushville, Rue Webb.

The finance committee is again calling attention to the responsibility of Rush county in financing the centennial because it is their celebration, made the following statement today:

"One very important feature of putting on any kind of an enterprise is the finance to put it over.

"Our Rush county centennial celebration is no exception to this rule.

"We trust that you will show your loyalty to the county that has been the home of your forefathers and has produced your wealth, by your financial support.

"Please do not think this enterprise is for the business men alone and think the business men should finance it. We hope that every citizen of the county will feel that he or she has a part in this great event.

"When the finance committee, which is composed of the following men—H. M. Cowing, R. C. Hargrove, S. L. Trabue, G. P. Hunt, E. R. Casady, John McCoy and H. C. Flint, calls upon you, have your contribution ready.

"As it will be impossible to see you all, we ask that you call or send your contribution to the Rush County National bank, in care of H. C. Flint, treasurer."

Frederick, Okla. —Two women fainted and several teams of horses staged runaways on Main street here as 1,000 Ku Klux Klansmen paraded carrying banners warning married couples to "live true" and denouncing joy riding.

Easy.

"George, you should get married," advised the married man. "It is wonderful to have a home waiting for you when you return at night. There is ecstasy in caring for a garden and a lawn; you can raise a dog from a pup, children are adorable and no trouble at all, a wife is an inspiration, and even if she does get suspicious you can always talk her out of it." "I could if I could like you can," said the bachelor, thoughtfully. —Wayside Tales.

PIONEER RESIDENT IS DEAD

Miss Rose Berry, Age 88 Years, Expires At Home In This City.

Miss Rosanna Ashmore Berry, age 88 years, a native of Rushville township, expired Monday night about six o'clock at her home, 406 East Ninth street, death being caused from an illness of several weeks of paralysis. The deceased was well known here and was the sister of the late Captain E. H. M. Berry, whose widow died a few years ago. The deceased leaves no near relatives, excepting Hobart Berry, a nephew of this city.

The funeral services will be held at the late home on Wednesday morning at ten o'clock in charge of the Rev. C. S. Black, and burial will take place in the East Hill cemetery.

Boys Camp To Close Summer Work Projected at Meeting

Continued from Page One

"He never has a spare moment. Boys now have the whole summer planned, the number of times they will go swimming and the other thing they will do. Gangs are being or have been organized, some under good leadership and some under very bad leadership. What we want to do is to be a gang leader for every boy who needs one. It will be a wonderfully fine thing for the summer boys' work to close up with a camp."

Dr. Sexton was called on and said that his experience as a boy taught him that anything done for a boy would be appreciated and Mr. Allen declared that the adoption of the motion for a camp would be a great source of satisfaction to the board of education. He said the over-privileged as well as the under-privileged boy needed it.

Mr. Gary, speaking as a citizen said he believed the people of this county would support the plan and Mr. Trabue, as president of the Kiwanis club, said the plan should not be regarded as an undertaking of the organizations but that they should be only the mediums through which it is presented to the community.

New York—"Girls, never take a man's promise without a ring to back it up," was Miss Winifred Lynch's warning as she settled a breach of promise suit for \$20,000.

New York —Picking his teeth with a match caused the death of Charles Castellano. It ignited suddenly and he threw it hastily from him into a can of gasoline, which exploded, setting fire to his clothing.

FROM GIRLHOOD TO WOMANHOOD

Woman Relied Upon Lydia E. Pinkham's Vegetable Compound

Emporia, Kansas. —"I began using Lydia E. Pinkham's medicines years ago when I was a girl. For several years I had severe pains at menstrual periods, making me very weak and interfering with my regular duties. I tried several remedies without obtaining relief. I was induced to try Lydia E. Pinkham's Vegetable Compound by friends and it restored me to normal health. I often have occasion and do recommend your Vegetable Compound to my friends who have troubles similar to my own. You may use these facts as a testimonial." —EVA ALDRICH, 218 Union St., Emporia, Kansas.

There are many women who first used our Vegetable Compound during their girlhood days. They found it a valuable help during trying periods. In later years they use it whenever they feel those annoying symptoms which women often have.

Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is prepared carefully from the best quality of medicinal plants, whose properties are especially adapted to correct the troubles women have.

Eating Ourselves To Death

In the days of our forefathers men were keen of mind, active of body and rugged of honesty. They ate simply food and not too much of it.

The generation of today is not to be compared with that of 100 years ago. Our bodies are not in the same pink of condition, and our minds are more or less indifferent except where in the subject pertains to the profit or pleasure of self.

The reason is simple. Too much to eat and too much of it eaten.

It is true that we have made wonderful forward strides in the past Century. But they are no greater than the opportunities warrant. Then, too, the brains that produced these successes were in the heads of certain individuals, and those individuals were not gourmands.

The fact is, we are literally eating ourselves to death slowly, but surely. We eat as our fancy dictates, and we eat to excess of the wrong food.

If we really knew the proportion of the population that is afflicted with indigestion, or constipation, or both, the figures would be staggering. Correct eating in moderation does not produce either of these complaints.

The child that is stuffed and pampered from the time it leaves its mother's breast will not produce either a normal mind or body. The system can not properly assimilate the loads of stuff that are shoveled into its stomach. Mental deficiency

and bodily ailments are the inevitable result.

We may eat ourselves to death, if we prefer. That is purely our own affair.

But we have no right to stuff a child beyond capacity with food that is injurious to a body not yet matured.

The child knows no better but we do, or should.

From The Provinces

It's Five Years Too Late
(Buffalo Express)

Risking the charge of being prejudiced, we might say that our idea of zero in reading is to follow the career of Jack Dempsey in Europe.

Safer to Predict After Election
(Boston Transcript)

Predictions of a Democratic landslide next November as a result of

the Indiana election, are now in order. But the proof of the pudding still remains in the eating.

MOST EX-SERVICE MEN
HAVE BEEN EMPLOYED

Report of American Legion Employment Division in This State
Is Most Satisfactory

MOST JOBS ARE PERMANENT

(By United Press)

Indianapolis, Ind., May 23.—Almost all of the unemployed ex-service men in Indiana have been employed.

This was the report of the Indiana division of the American Legion today in announcing its success in the drive to place 700,000 unemployed ex-service men throughout the U. S. inaugurated March 20 by the American Legion.

They are not necessarily taking emergency jobs, such as construction work, clean up work etc., but they are being placed in positions similar to those they held before they went to war, according to the report.

Although the report said the Legion has no definite figures yet the census has not been quite completed but they base their assertions on optimistic statements from locals throughout the state.

RUSHVILLE SHOWS HIGH CLASS BALL

High School Team Hits When Hits
Are Needed and Defeats Con-
nersville, 7 to 4

GOOD PITCHING A FEATURE

Rushville Collects Nine Bingles,
Many of Them For Extra Bases
—Runs Wild on Bases

The Rushville high school displayed a very high class brand of ball playing here Monday afternoon, when they defeated Connersville "high" by the count of 7 to 4, in a game that was well played by both sides, and featured by the excellent pitching of Lakin for Rushville and Ridge for the visitors, as well as good fielding by both teams.

Both teams made several bobbles in the field, but the runs for the most part were well earned, due to extra base hits. The visitors scored two runs in the first inning which were due to a two base hit, and a couple of errors, but the locals got one of these runs back in the same inning, when Connersville also made an error, and Stewart singled which scored Poston, who was on base.

In the second and third innings the score remained 2 to 1 in favor of Connersville, and in the last of the fourth, Rushville added three markers when Poston, first up, doubled and Stewart was safe on an error. Casady hit a high fly to left, but Poston did not make home, and when Frazee singled, both Poston and Stewart scored, with Frazee taking second on the throw. Headlee hit a fly and sacrificed Frazee to third, and when Frazee started to steal home, the third baseman overthrew and Frazee scored.

In the first of the fifth Connersville put across another run and tied the score at four points in the first of the sixth. The score was not tied long, as Rushville went two more in the lead in the last of the sixth, and scored another one in the eighth, holding the visitors without any more runs in the last three innings.

Stewart, third baseman for Rushville was at bat four times and got on base each trip, getting three hits, and reaching first on an error, and three of the trips went for runs. Poston also was on base three out of four trips to the plate, and counted for three runs, and Frazee got three hits out of four times up, but died on base twice, scoring only one of the runs.

The line-up and summary:

	AB	H	R	A	PO
Rushville	32	9	7	10	27
Nipp, 2b.	3	0	0	1	2
Wainwright, ss.	4	0	0	0	3

Three base hits: Poston, Stewart, Frazee, Wainwright, Headlee, Casady, Robinson, Sparks, G. Williams, 2 Lines, Sacrifice hit, Headlee, Base on balls, off Ridge 1, off Lakin 2. Struck out by Ridge 8, by Lakin 9.

MANAGER STALLINGS ASSERTS HE HASN'T TALKED TRADE WITH TIGERS

Stallings and His Crack Outfielder Archdeacon.

George Stallings, owner of the Rochester International league baseball club, denies that Outfielder Archdeacon of his club would go to the Detroit Americans for two other players and a cash consideration. "No less than 17 clubs are after Archdeacon," said Stallings, "and I haven't even talked to Detroit about such a deal. At the end of the year I may sell my whole ball club, but right now I do not propose to sell a single player."

UMPIRE'S REJOINER SQUELCHES PITCHER

Moriarty Resorts to Drastic
Measures to Curb Hurler.

Twirler Who Pitched Nothing but
Strikes Caught Off His Stride and
Could Not Locate Plate—Is
Given Deserved Call.

Sometimes an umpire is forced to resort to drastic measures to silence a protesting athlete. George Moriarty, American league umpire, was up against such a situation one day last summer.

A certain American league pitcher, who throws nothing but strikes, if you would take his word for it, was doing

Umpire George Moriarty.

the pitching. Ordinarily, said pitcher is a mighty hard man to hit. This particular occasion was one of his few off days. He was wild, and when he did manage to get one over the batter would take all kinds of liberties with it. At such times it is always the cue for the pitcher to alibi himself at the expense of the umpire.

Moriarty, who was umpiring balls and strikes, was displeasing the pitcher most of the afternoon. The pitcher managed to win his game despite the fact that the opposing team made eight runs. In the eighth inning, after Moriarty had failed to call a certain batter out on strikes, the pitcher let the world know that he thought the umpiring was sour.

"That is 14 you have missed on me!" he yelled.
"How many?" asked Moriarty in a voice equally loud.
"Fourteen!" replied the pitcher. Then in a voice that carried all over the park, Moriarty replied:
"Some one must have told you to say that; you can't count that far."

POINTERS ON RUGBY RULES

One Bad Feature of Canadian Style Is
Mass Play Permitting Pushing
of Ball Carrier.

A rugby foot ball coach points out that one bad feature of the Canadian style of play is that the mass play permits the pushing and assisting of a ball carrier. One feature which the American game could adopt with profit, he points out, is the rule preventing "stalling." In Canada the ball must be in play 20 seconds after a down is called.

The Score Board

Yesterday's hero—Deacon Scott, Yankee short stop, made several spectacular plays and drove in the run with a single in the thirteenth inning that beat the Browns, 4 to 3. Babe hit his first one.

Falling down at the bat and in the field behind Art Nehf, the Giants lost to the Reds, 7 to 2. It was four losses in a row and was the seventh game lost out of eleven on the western trip.

Hopasby hit a homer in the eighth inning with two on and tied the score, but errors by Stock and Ainsmith gave the Braves two runs in the thirteenth inning and the Cards lost, 8 to 6.

Zach Wheat's homer in the ninth inning helped the Robins beat the Cubs, 3 to 0. Vance let the Robins down with four scattered hits.

With two men on in the 9th, Clark, Tiger pinch hitter, rapped out a homer and tied the score with the Athletics. It went 11 innings and ended 5 to 5. Cutshaw, Heilman and Walker also hit homers.

Lefty Cooper held the Phils safe all the way while the Pirates hit Hubbell hard and won, 5 to 0.

Speaker hit a single, double and triple and helped the Indians beat the Red Sox, 7 to 1. Cleveland got only two hits after the third inning.

Red Faber was at his best in the pinches and the White Sox beat the Senators, 4 to 3. President and Mrs. Harding attended the game.

This Time Last Year

American Polo team was beaten in London by the Ranelagh Club 4 to 1 in a practice game.

Tilden recovered from an attack of indigestion in Paris and announced he would be able to play in the hard court tennis championships.

Penn State won its twentieth consecutive game beating Pittsburgh by a score of 5 to 2.

Carl Mays was indefinitely suspended and Wally Sehang was fined \$25 for a run in with Umpire Chill. Philadelphia beat the Reds and got out of last place.

DYE STOCKINGS
OR SWEATER IN
"DIAMOND DYES"

"Diamond Dyes" add years of wear to worn, faded, skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Taste is a matter of
tobacco quality

We state it as our honest
belief that the tobaccos used
in Chesterfield are of finer
quality (and hence of better
taste) than in any other
cigarette at the price.

"They Satisfy"

Sporting Squibs of All Kinds

The Ice palace, of Philly, will hold
boxing contests all summer.

London Banks Football (soccer) association, has twenty-three clubs and 1,200 registered players.

Joseph Guillemot, French distance runner, may be forced to retire from active competition because of his health.

Walker, the St. Mirron center forward, with 38 goals in 31 games, leads all the scorers in the Scottish Soccer league.

Mrs. Molla Bjurstedt Mallory, American woman tennis champion, will seek the world's championship on the courts of the famous Wimbledon club in England again this season.

A helpful sign for rowing in the northwest section of the United States is the introduction of the sport to students of Reed college, Portland, Ore., and at University of British Columbia, Vancouver.

William, 1:58½, is again in training and as his ailing leg seems to be in better shape than at any time last year, should make things very interesting for those 2:05 pacers through the West.

It is estimated that 15,000 trotters and pacers are in training for the harness racing season in this country and Canada. They will appear on approximately 1,000 tracks, many of which will not permit betting.

Where Economy Is Yours

You can "hold off" that new suit that costs so much now by having your old one made like new. For the difference in service and at the same price of the ordinary cleaner you will show good judgment in having us do your cleaning. That's where you show economy. Here is where you get it.

REGARDS ATTEMPT AS BEING FUTILE

Rep. Volstead Declares Any Effort in Congress to Weaken Volstead Act Will be Beaten

CHALLENGES THE LIBERALS

Rep. Hill Makes Campaign to Inject Wet and Dry Issue in Fall's Congressional Elections

By JAMES T. KOLBERT
(U. P. Staff Correspondent)
Washington, May 23. —Any attempt in congress to permit manufacture of beer and wine "will be battered down and beaten" Representative Andrew Volstead of Minnesota, author of the prohibition, declared to the United Press today.

Volstead challenged liberals in the House to "do their worst" in their campaign to give local option on the wet-dry issue to the different congressional districts. He regards their attempt, it was made known as being "knowingly futile."

The dry leader will take an active part in the coming congressional campaign on the side of prohibition.

An out and out campaign to inject the wet and dry issue into this fall's congressional elections is being made by Representative Hill of Maryland and other Republican "liberals" in the lower branch of congress.

They are now circulating petitions by which they hope to force a vote on congress on a bill giving congressional districts the right to say whether they shall have wine and 2.75 per cent beer for home use only and to be taxed twenty cents a gallon.

Discussing what he termed the "utter futility" of the liberalization movement, Volstead said quoting in part of a campaign pamphlet just issued:

"The time is here when every man and woman who loves their country should support its constitution and obey the laws enacted to enforce it. All liberty and security rest on law. License to sell beer and wine contained in a prohibition law makes it impossible to force. It is as indefensible to vote for such a non enforceable law as it is to vote directly to violate the constitution.

"The only defensible position for a member of congress to take is to sustain the law in enforceable form. There is only one defensible position for a judicial officer and that is to construe the law so as to carry out its manifest power. There is only one defensible position, law abiding citizen and that is to obey the law and support those in public office who are honestly endeavoring to support it. More than two dozen wet organizations are making the amendment of candidates pledged to support a beer and wine amendment to the national prohibition act an issue in the primaries.

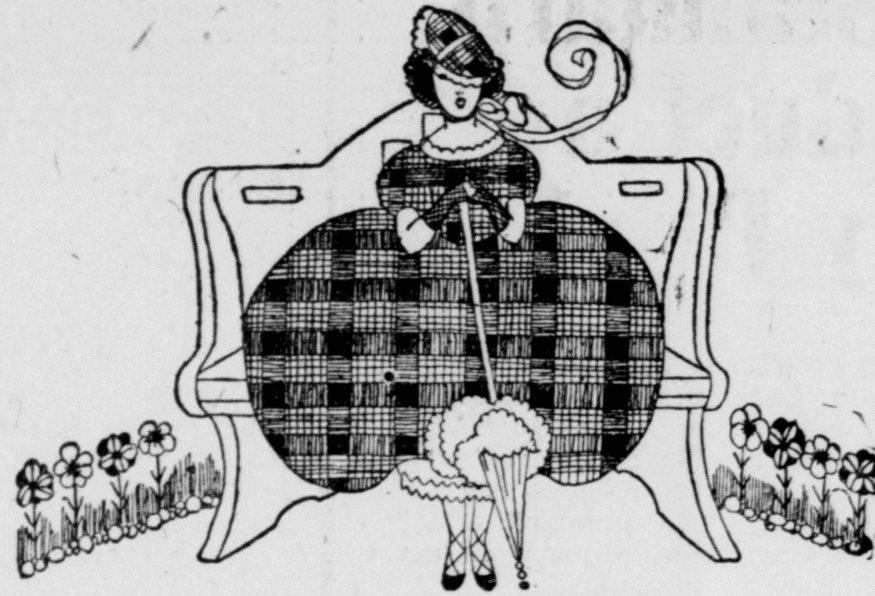

"Those who seek to destroy prohibition recognize that the public cannot be persuaded knowingly to restore the saloon or the sale of whiskey. They are camouflaging their demands by asking for what they call light beer and wine."

The Little Flatrock Christian church Mission Band will hold an exchange at Hunt's hardware store here Saturday morning.

I. U. STUDENTS FINDING GOLD IN BROWN COUNTY

Pan Out Several Dollars Worth in Idle Recess, Believed to Have Been Washed There by Glaciers

FOUND IN GRAVEL AND SAND

Bloomington, Ind., May 23.—Panning pay dirt for gold along Bear Creek in the idliest recesses of Brown county is the recent experience of Indiana University geological students.

The precious metal is to be found in several counties in Indiana, according to Dr. W. N. Logan, state geologist and member of the university faculty, but there is no distinct gold bearing area.

On their last expedition the students obtained \$5 worth of gold, several garnets and a \$40 diamond it was announced.

The gold, according to Logan, was brought into the state by glaciers and is found mostly in sand and gravel in depressions in bed rocks.

Bear Creek has been worked for gold on various occasions, and it is said John Marreison an old time miner several years ago panned a dollar's worth of nuggets daily.

East St. Louis, Ills. —Tom Kelley stormed into the police station indignantly complaining that a certain bar had refused to sell him whiskey. Somebody had accommodated Tom though, police decided and locked him up.

Detroit —"From now on I'm not guilty. This 'yes judge I'm guilty stuff is the bunk." Thus Mrs. Catherine Duggan pleaded not guilty to a charge of bootlegging, the third she has fa ed.

Every Standard Oil Product a Primary Product

THE term by-product is susceptible of misinterpretation. In the manufacturing activities of the Standard Oil Company (Indiana) there are no by-products. The making of every product is a separate activity. Each is made to conform to a predetermined standard, and is judged strictly on its merits as a primary product.

Lubricating oils made by the Standard Oil Company (Indiana) conform to a standard fixed by lubricating engineers to meet the needs of various types of machinery. The standard being fixed, it is necessary to obtain crude oil of the particular type best adapted to yield the lubricating units which will conform to this standard.

There are many kinds of crude petroleum, each differing one from the other. Even between the oils delivered by different wells in the same field a considerable variance has been noted. One kind of crude oil will yield a maximum of lubricating oil of fine quality; another may yield little, or none, of these fractions, but will yield a maximum of gasoline.

In selecting crudes for lubricants, for instance, the Standard Oil Company (Indiana) has been careful to choose those which have the physical characteristics necessary to maintain the correct lubricating body under working conditions. These crudes are then carefully processed and refined to produce the long line of lubricants manufactured and sold by the Standard Oil Company (Indiana).

Their manufacture is a business in itself. From the choice of materials which go into them, down to the last operation of refining, they are of primary consideration. This care in the selection of raw materials; every step of the refining process, and the fact that products manufactured by this Company are of superior quality is recognized generally. This is evidenced by the fact that during 1921 nearly 25 million gallons of Polarine, the Perfect Motor Oil, were needed to supply the demand.

So with every product refined by the Standard Oil Company (Indiana). Each is made to perform a certain service, and each goes to the consumer with the unqualified guarantee of this Company that it is exactly as represented and that it will give a maximum of service, at a price which is fair to all.

AMUSEMENTS

Lydia Knott Coming Soon.

Lydia Knott plays the mother, Ma Bascom, in the Rex Ingram production for Metro of "Turn to the Right," the photoplay from the John Golden stage success by Winchell Smith and John E. Hazzard, showing at the Princess theatre on Wednesday and Thursday.

This is Miss Knott's third appearance in maternal roles for Metro. She was seen in the east supporting Alice Lake in "Should a Woman Tell?" and the same star's newest screen play, "The Infamous Miss Revell." Miss Knott's characterizations of mothers in several Charles Ray pictures, and her portrayal of the title role of "Mrs. Wiggs of the Cabbage Patch" on the stage have won her a wide popularity on the screen. A quarter of a century ago she was a leading woman on the stage, creating the role of Lydia in "Quo Vadis."

Last Showing at the Mystic.

C'mon, see the West, young man. It certainly is in "Man To Man," the Universal-Jewel production at the Mystic theatre for the last time today. The broad sweeps of unfenced grazing kingdoms of Arizona and California furnished the background against which Harry Carey and a strong cast of players were photographed in the action of a virile story.

A stampede of five thousand head of cattle gives enough thrill to the spectator to prove that Stuart Patton, the director, hasn't lost his pep since he directed "Conflict," Priscilla Dean's amazing Universal-Jewel starring vehicle, which provided theatre-goers with a whole flock of thrills.

Opposite the star in "Man To Man" Lillian Rich shows what two years in pictures can do to a young musical star. She is a real "trouper" by this time, and her work gets the meaning of the role satisfactorily across.

George C. Hull prepared the scenario for the screen version and Stuart Patton directed it. In the picturization none of the thrill element of the book was discarded.

Harry Carey is the star of the picture, and something worth seeing may be expected of him, remembering his "outcast" roles in "Overland Red" and "Sundown Slim."

Alfred Allen, of "Hell Morgan's Girl" fame, is said to have another Hell Morgan role as "Hellfire" Packard in "Man To Man." Willis Roberts finished a sympathetic characterization in the picture the day before his death.

Others in the cast are Harold Goodwin, May Giraci and Charles LeMoine.

and Mrs. Walter Phelps, Mr. and Mrs. Russel Phelps and son Harold, Mr. and Mrs. Fred Addison, Miss Harriet Rawls, Bert Sharer and John Gates and son Lennard of Rushville were visitors here Sunday.

Mrs. Hezikiah Clark is visiting her son in Connersville.

Miss Alta Carfield is assisting at the library at present.

Mrs. Glen Kaler and Pauline Addison spent the past week with Mrs. M. J. Jackson of Greenfield.

James Perkins and family were visitors in Knightstown Saturday.

Thomas Addison of Arlington is working in Winfield's meat market here at present.

The Rev. F. W. Sumner and family were calling on friends here Friday.

Jesse Siler spent Sunday with Mr. and Mrs. Jesse Reddick.

Walter Addison and family spent Sunday with Mr. and Mrs. Frank Addison of Arlington.

Thomas Cooper and family have moved to Southern Indiana.

Miss Sharlee Kyser is visiting her grandparents, Mr. and Mrs. Roscoe Hiatt of Newcastle.

Mrs. V. L. Tetric has been quite ill for the past week.

The Mill ball team here plays Knightstown at Knightstown Sunday.

GIRLS! LEMONS

BLEACH SKIN WHITE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quart pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin. Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

READY TO RECEIVE CORN ENROLLMENT

Farmers Wishing to Enter Five Acre Growing Contest Urged to Have Names in by June 10

FEE OF 50 CENTS IS REQUIRED

County Agent Points Out That All That is Required is Field be At Least Five Acres

The county agent's office announces that it is ready to receive enrollment in the Five Acre Corn Growing Contest for 1922. As the enrollment must be sent into the State Corn Growers' Association by June 15, it is necessary that those who wish to go into the contest have their names and membership fee in the hands of the county agent by June 10.

The only fee that is required this year is 50 cents which pays for the contestants membership to the Indiana Corn Growers' Association. This organization gives suitable medals to contestants who grow 75 or more bushels to the acre on their contest plots. These membership fees are used to help pay for the medals.

A contestant that succeeds in growing 100 or more bushels of corn to the acre on his five acres will receive a gold medal; those that grow 85 and less than 100 bushels will receive a silver medal and a bronze medal will be awarded for a yield of 75 and under 85 bushels. These medals are mounted on silk watch fobs and make attractive awards which the winner will be proud of.

FARMERS TO HAVE SEED CERTIFIED

County Agent Has Received Copy of Revised Rules Governing Certification of Seeds in State

PROVIDES BETTER SUPPLIES

Hoped Plan of Inspection Will Discover Better Types and Bring Improved Seeds

The county agent announces that he has received a copy of the revised rules which will govern the certification of seeds in the state this year. A number of farmers in this county have expressed their interest in having seed certified this year and it is expected that the men who had their seed inspected for certification last year will continue in the work this year.

The seed certification work in Indiana is carried out under the authority of the Indiana Corn Growers' Association and the object of this organization in getting behind this work is to provide for better supplies of seeds of high quality. Indiana has been far behind other states in this respect and it is hoped that the plan of inspection and certification will discover the better types and help to stabilize the varieties used within the communities and eventually bring improved seeds to every farm.

It is not expected that a large number of farmers in one county will go into the business of pure seed production, but it is hoped that in Rush county a few sources of good seed will be established for each

SUMMER SPRAY FOR SCALE INFECTIONS

Control for the San Jose Scale Should be Started During the Dormant Season, Experts Say

FORMULA FOR THE SPRAY

Purdue Head Says That Weather Conditions During Winter and Spring, Increased The Scale

Favorable seasons, which have offered conditions for the development of a maximum number of San Jose scale, mild winters reducing winter mortality, ineffectiveness of natural enemies, and possibly other conditions have been responsible for an unusual increase of San Jose scale in Indiana, particularly in the southern half of the State. In addition the wet spring has prevented as thorough spraying with the dormant spray as was necessary to check the increasing scales. As a result of these various favorable factors the scale now threatens to destroy many trees, and possibly many orchards unless checked before the next dormant spray can be applied.

The time to spray for the San Jose scale is during the dormant season, particularly in the spring before the foliage comes out, and no summer work will offset neglect of winter treatment in badly infested orchards. However, we are confronted with the situation of many orchard trees entering the growing season badly infested with scale. Experiments conducted by the Bureau of Entomology, U. S. Department of Agriculture, in different years and

Rural Health

BY GRACE EWING
County Red Cross Nurse

What is Malnutrition?

Unfortunately, malnutrition is not an infectious disease like measles or whooping cough which runs its course and is then over. It really is not a disease at all. A medical inspector once described it as "a low condition of health and body substance. It is measurable not only by height, weight, and robustness, but by many other signs and symptoms."

The malnourished child lacks the characteristics of a normal child; of course depending upon the degree of undernutrition. He is usually thin, his skin may have a pale or sallow appearance and there are usually dark hollows or blue circles underneath his eyes. His hair may be dry and coarse, his tongue coated and his bowels constipated. Because the muscles are weak his shoulders are rounded and shoulder blades protrude. Adenoids, enlarged or diseased tonsils and decayed teeth may be present also.

Dr. Emerson, who was one of the first to direct our attention to undernourished children, found an average of five physical defects in a malnourished child to one in a well-nourished one. Inquiry into the living habits of these children always reveals a faulty diet or otherwise defective health program.

Insufficient or unsuitable food and drinks such as tea and coffee instead of milk, is generally conceded to be the chief cause. The first requirement of a growing child is food. Every movement of his body requires energy, and this energy must be furnished by the food he eats. If the foods is insufficient, the body itself

FIRE AT NIGHT PREVENTS LOSS

Where Chicks Are Still Roosting on Floor and Have Tendency to Pile up, Fire Will Prevent Loss

LARGE ROOSTING QUARTERS

Where Many Chicks Are Raised, Important to Get Them on Fresh Ground For Summer Rearing

Some valuable suggestions on the summer care of chicks are offered by L. L. Jones, of the poultry extension staff of Purdue University in the accompanying statement which follows:

There are a few suggestions concerning summer care of chicks which need to be repeated each season. One of the many problems is the question of whether to permit the brooder stove fires to go out entirely.

Where the chicks are six or eight weeks old and where there is a tendency to pile up at nights, a fire may save considerable loss. The brooder stove can be shut off during the day so that it will burn very little coal. If shaken down about an hour before roosting time at night, heat can be had without much cost or labor.

One of the trying things at this season is to go out to the brooder house at nightfall and find the chicks piling up in the corners. Mechanical devices may partially overcome this but the one thing which will do more to help than any other thing seems to be to train the chicks to go on roosts at an early age. These roosts can be placed at an

THE FAMOUS ROUND

WHITE FROST

The Life Time Refrigerator

WHITE FROST refrigerators are constructed entirely of galvanized steel—they cannot rust.

WHITE FROST refrigerators are welded throughout—every seam and joint is air tight and moisture proof.

WHITE FROST refrigerators are insulated with pure, clean and sanitary granulated cork. By a special process this cork is packed into every bit of space between the inside and outside bodies.

WHITE FROST refrigerators are fitted with seamless brass drain tubes.

WHITE FROST refrigerators are fitted with solid brass castings for locks, lock latches, hinges, etc.

WHITE FROST refrigerator fittings are all heavily nickel plated over brass.

WHITE FROST refrigerators are fitted with roller bearing castors. Note how easily it may be moved about.

WHITE FROST refrigerators have been manufactured for over fifteen years.

WHITE FROST refrigerators have been sold in quantities in every civilized country on the globe.

WHITE FROST refrigerators have always given absolute satisfaction wherever sold and under every extreme condition.

WHITE FROST refrigerators are equipped with patented revolving shelves. These shelves are exclusive with this refrigerator. Instead of reaching in for the article desired you bring it to the front without trouble and without any chance of tipping or spilling. They are adjustable for height. They are substantial and will carry six or seven times over any load you may possibly put on them. This one feature puts WHITE FROST ahead and beyond all standard types.

WHITE FROST refrigerator doors and lids are all metal. They cannot warp or swell out of position.

WHITE FROST refrigerators have no corners, cracks, seams or open spaces to allow of accumulation of dirt.

WHITE FROST refrigerators are finished as carefully on the inside as on the outside. Like a smooth china dish—they are easy to clean and keep clean.

WHITE FROST refrigerators are proof against insects and vermin.

WHITE FROST refrigerators are built of the highest grade of material and the workmanship speaks for itself. It is the one and only refrigerator from which you may expect a life time of service.

WHITE FROST refrigerators do not wear out. WHITE FROST refrigerators give the utmost in economy and service.

Your Refrigerator Expense Is Over Forever When You Purchase a
WHITE FROST

Ice Cold Water always on hand. We ask you to see this refrigerator even though you do not need one. It is the last word in refrigerators.

RURAL HEALTH

Continued from Page One

is burned to provide the energy and the loss of weight results. An insufficient breakfast and inadequate supper practically always means too little total food, even though a healthy midday meal may be eaten. Indulgence in sweets and highly sea-

soned foods, habitual eating between meals, late hours, unventilated sleeping rooms, and lack of exercise may all result in a "finicky" appetite. Whenever the food taken falls below the actual body need, malnutrition is the unfailing consequence.

Insufficient sleep and other faulty health habits are also responsible for malnutrition, as well as enlarged and diseased tonsils, adenoids,

decayed teeth, tuberculosis and syphilis. If these diseased conditions exist and are allowed to go on uncorrected, no matter how much wholesome food a child eats, there is little chance for him to hold his own, much less for him to gain.

For feeding hogs one bushel soy beans replaces 5 bushels of corn.

PURDUE JERSEY SETS STATE MARK

Estelle Joan Produces 10,632 Pounds of Milk and 633 Pounds of Butterfat Breaking Record

RECORD NO GREAT SURPRISE

Her Sire Has Four Daughters in Purdue Herd Averaging at Age of 3 Years Nearly 550 lbs. of Fat

Lafayette, Ind., May 22.—A Jersey heifer, Estelle Joan, in the Purdue University herd, recently broke the state record in the senior three year old division, by producing 10,632 pounds of milk and 633 pounds of butter fat, exceeding by over 40 pounds any record that has ever been made in the state by a Jersey at that age. This announcement was made today at the university dairy department.

The heifer freshened some time ago with an excellent bull calf and has started to make another good record this year. In March she made 75 pounds of fat and almost that much in April, indicating another record this year. As a two year old she made almost 500 pounds of butterfat.

"This record was no great surprise because the heifer was good from both the standpoints of the sire and the dam. Her sire has four daughters in the Purdue herd averaging at an age of three years nearly 550 pounds of fat," says a statement from the dairy department. "He is a son of the Imported Jap, the only Jersey Island bred bull with five 1000 pound daughters. Her dam is Purdue's Golden Estella, the present state champion Jersey, who made last year 14,952 pounds of milk and 748 pounds of fat."

Estelle Joan is fed and milked 3 times a day. She receives the best of care and does good work at the milk pail because of the good breeding behind her, the good feed and the good care.

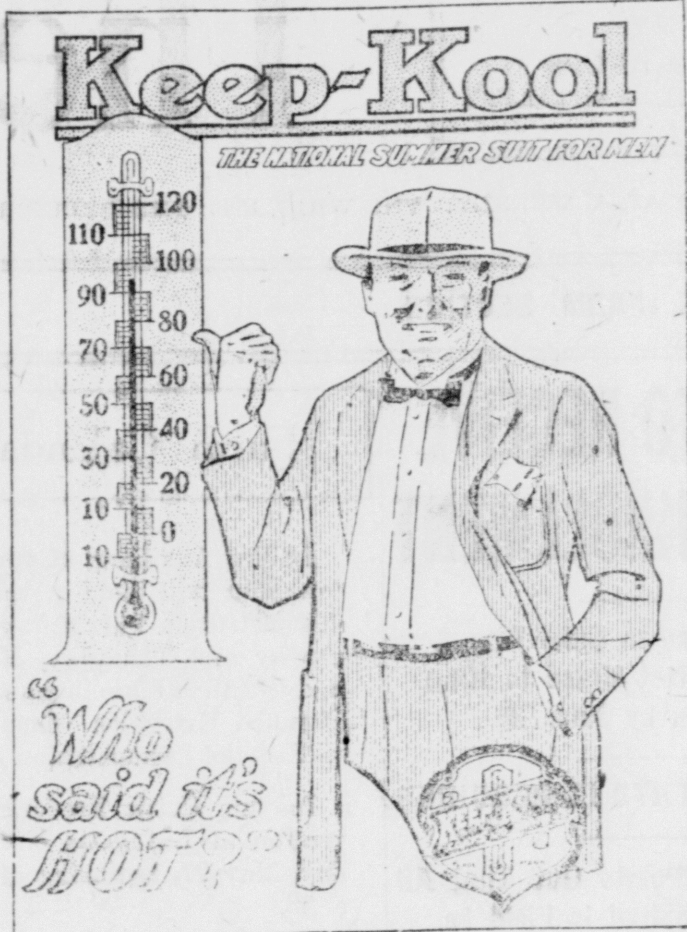

41 BOYS HAVE JOINED RUSH COUNTY PIG CLUB

Boys Are to Meet at County Agent's Office Thursday Afternoon, June 1 to Receive Instructions

PIG CLUB WORK IS GROWING

When the time for making application for membership in the Rush County Pig Club closed Saturday night, a total of 41 boys had joined the club. Fifteen of these are to feed Duroc-Jerseys, fourteen applied for Big Type Poland Chinas, and 12 want Hampshires.

The pig club committees of the

KNECHT'S
O.P.C.H.

three breeders' organizations that are backing the club are working this week to locate and inspect the gilts available for the club to see that a desirable type of pigs are brought in to the members.

The boys are to meet at the county agent's office Thursday afternoon, June 1, at 1:30, to receive instructions for the contest and in order to draw their pigs. The breeders who are furnishing the gilts will have them in Rushville and ready to turn over to the boys at 2:30 p. m.

Pig club work in Rush county is making a steady growth. On May 28, last year, 12 boys received gilt pigs, and this year's club will have 41 members. A big day is planned for the last Saturday in August when these 41 pig club members will show their pig club gilts in a club show to be held in Rushville. Three hundred or more people attended the show last year and it is anticipated that this year's show with three breeds represented will draw a correspondingly larger crowd and attract more interest.

CATTLE CONVENTION MAY 27

Annual Meeting Opportunity to Hear Reports of Feeding Experiments

The Indiana Cattle Feeders' Convention will be held in Lafayette, Saturday, May 27, beginning at 10:30 a.m. This is an annual meeting of great interest to cattle feeders and is the occasion for the inspection of the feeding experiment cattle at Purdue and for the hearing of the report of the results of the feeding trials. A detailed program of the convention has not been received here, but farmers who have attended these conventions in the past know that they can expect something worth while.

Indianapolis —An old store box was on the sidewalk while hundreds of persons passed. But no one looked into it. Then along came James Crane. He found two half-pint bottles—full. A police sergeant saw him. "One hundred dollars and costs," said Judge Wilmett.

SUMMER SPRAY FOR SCALE INFECTIONS

Continued from Page One

places, show that of the sprays tested the sulphur sprays are most efficient for summer sprays from the standpoint of safety to trees, cost, and checking of the scales.

To meet the present emergency, and until experiments can be made with other possible summer sprays, orchardists with scale infested trees are urged to spray with lime-sulphur, using the liquid concentrate at the rate of 1½ gallons to each 50 gal-

lons of spray or the regular self-boiled lime-sulphur. Orchardists must give particular attention to thoroughly coat the twigs and branches since it is necessary for the spray to reach the scales to be effective. The best time to apply for the San Jose scale will be about the time they begin to hatch and a second application two weeks later. It is planned to advise orchardists as soon as the scale begins to hatch in southern Indiana. If convenient the lime-sulphur may be applied with the regular summer spray schedule.

Summer sprays of dilute lime-sulphur are liable to give severe burning of foliage and fruit if applied in hot dry weather when temperature is 90 degrees F. or above in the shade. In heavily infested orchards the efficiency of the lime-sulphur spray may be increased by adding 40 per cent nicotine sulphate at the rate of ½ pint to each 50 gallons.

A spray of whale-oil or fish oil soap and 40 per cent nicotine sulphate at the rate of 10 pounds of soap and 10 ounces of nicotine per 50 gallons of water will kill the scales even after they have developed a considerable scale covering.

Every orchardist with scale infested trees should plan to use one of the summer treatments recommended above.

One of the tests conducted by the Bureau of Entomology, U. S. Department of Agriculture at Fennville, Michigan, several years ago, is fairly conclusive as to the value of summer spraying with lime-sulphur, and is as follows.

Treatments	No. apples infest-	No. apples not infest-	% uninfest-
1. Commercial liquid lime - sulphur 1½ gal. to 50 gals. sprayed May 12, 25, June 14, July 25.	137	1,606	92.13

In the same sure way, Valspar protects and beautifies floors and furniture—wood-work of all kinds, indoors and out. A Valspared surface firmly resists water, weather and "accidents."

Anything that's worth varnishing—is worth Valsparing.

E. E. POLK

Hardware

Rushville, Ind.

Massey-Harris Two Horse Mower No. 21

Splendid balance obtains. The gearing is located back of the axle where, aided by drawing the machine from beneath the pole, it successfully balances the cutting apparatus. Practically all of the weight is thus placed on the wheels at their centers with the result the traction is increased and neckweight is avoided.

Rough fields are readily mowed without straining the cutter bar. This is made possible by adjustments provided for the lifting spring which enable carrying the bar so lightly on the ground that it will go into and out of depressions as nicely as it will follow a level surface.

The knife works without clogging. Its head travels in a close fitting bearing on the inner shoe for which the head is specially milled and its sections are held to their work by a series of steel lips. Everything that comes between the guards is quickly cut and at each stroke the knife head clears the inner shoe caps of any dirt or grass that may have gotten under them.

Self-aligning pitman bearings, consisting of a double spoon at the lower end of the pitman which clasps the ball of the knife head and a double cone at the upper end which swivels in the pitman box, keep the pitman and knife properly aligned at all times. Accordingly, the knife head is never unduly strained and seldom breaks. The pitman bearings or connections are forged steel.

A perfectly lined cutter bar enables the knife to work effectively. Both the guards and bar itself are planed or milled to fit one another perfectly. This assures an alignment that is not otherwise possible to get. Every guard is where it belongs and every knife section makes a perfect shear cut with the ledger plates over which it travels.

READY TO RECEIVE CORN ENROLLMENT

Continued from Page One

pleted the contest last year and three of these won gold medals, four received silver medals and seven were awarded bronze medals. W. L. Booth of Anderson township had the highest yield in the county with 406.1 bushels per acre.

Some farmers have the impression that in order to join the contest they must have a field of exactly five acres, but the county agent points out that all that is required is that the field be at least five acres. Then in the fall when the plot is checked up, the farmer has the privilege of picking his five acres out of any part of the field. Of course, it must be in one continuous piece.

Some interested farmers have been kept out of the contest in the past because they were of the opinion that the checking of the plot will entail a lot of trouble and extra labor. This is not the case, as it is not necessary to husk and weigh the entire plot in order to arrive at the yield. The method that is used is the husking and weighing of one hundred hills, or its equivalent in the case of drilled corn, in three representative places in the field and taking the average. From this weight of the product of a hundred hills and the known number of hills to the acre at the rate of planting seed and from data taken in the plot regarding stand and barrenness and the determined weight per bushel of the corn on the particular plot, the yield can be arrived at to a small percent of error.

Rush county is one of the largest corn producing counties in the state and should make a big showing in this great statewide project. Let's have at least five entries in the contest in each township.

FARMERS TO HAVE SEED CERTIFIED

Continued from Page One

type of seed, so that farmers desiring better seeds will be able to obtain them locally. Applications for certification of

wheat and other small grain cereals must be in the hands of the secretary of the Indiana Corn Growers' Association before or on June 15, and any one interested in this county should apply at the county agent's office for further information and application blanks. Applications for the certification of corn and soy beans must be in by August 15.

FIRE AT NIGHT PREVENTS LOSS

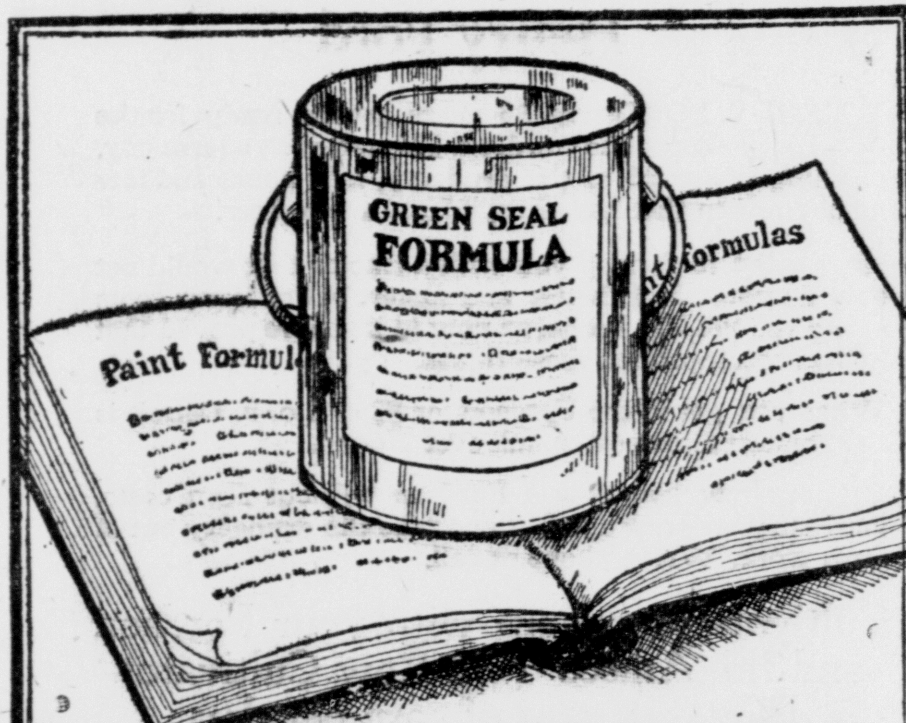

Continued from Page One

angle in the back of the brooder stove room and should be built with a wire netting just under the roosts so that the chicks can not pile up

underneath. When the stove is removed, flat roosts may be set in the center of the room or wherever seems desirable.

The same problem arises with hen-hatched chicks. A big cause of loss or at least slow growth, is piling up of the chicks in the brood coops after the hens have left them. These chicks should be transferred to larger roosting quarters or if this is impossible, roosts should be placed in the brooder coops.

Where many chicks are raised, it is particularly important to get them on to fresh ground for summer rearing. This is usually done at the earliest possible time.

Open Book Methods in Paint-Making

Hanna's Green Seal Paint is advertised so that the public will know all about it. Therefore, the more the public knows about it the better. That's why the exact formula appears on every package.

HANNA'S GREEN SEAL PAINT

is GOOD paint, and the formula proves it. It shows it's made up of the best materials, carefully mixed in just the right proportions. Use Green Seal on YOUR property. It will save you money in the long run.

150,000 HENS IN RACE
Lafayette, Ind., May 23.—More than 150,000 hens are entered in the state wide egg record project which is being carried on again this year by the Purdue University Extension Department in cooperation with County Agricultural agents and farmers associations. A total of 1,566 farmers have their flocks entered, this number extending to 42 counties in the state. Brown county has stepped to the front in this event with 88 entries. Switzerland is second with 74, Harrison and Fulton counties each have 71 farm flocks entered, DeKalb 70 and Kosciusko 60.

"Measure It By The Calendar"

It takes the calendar to prove the worth of paint. Any paint looks good when first put on, but the question is,—will it wear?

HANNA'S GREEN SEAL PAINT is made for long wear. It sticks to its job through all sorts of changes in weather and temperature. It protects and beautifies your property far longer than an inferior paint could do.

Judged by years of service, Hanna's Green Seal is the cheapest paint there is.

Fordson

THE UNIVERSAL TRACTOR

Henry Ford

HENRY FORD was 35 years getting ready for the new price on the Fordson. He started as a farm boy, planning to get rid of the drudgery, long hours and low money return that has always faced the farmer.

He wanted to furnish you with a tractor that would not only do your work better and faster, but at lower costs—and the 170,000 Fordsons now in use have proved that he has accomplished these things.

What you get in the Fordson for \$395 f. o. b. Detroit is the greatest farm power unit ever offered.

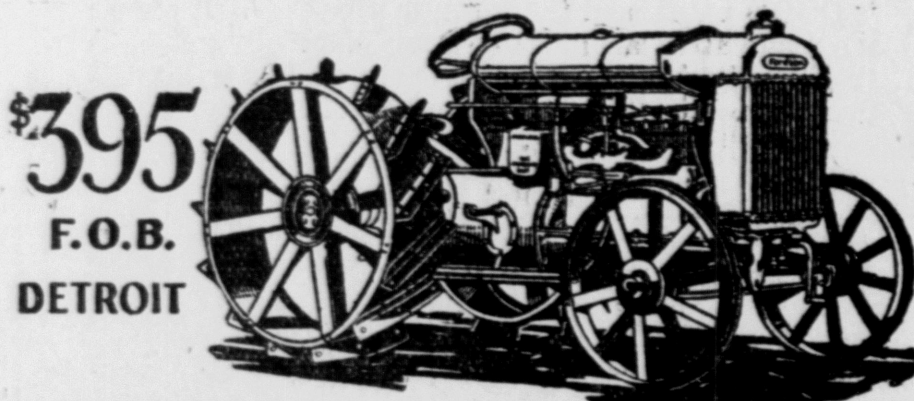

Let us show you how a Fordson will cut farm costs, increase your bank account and take the drudgery out of farm work. Write, phone or call.

Cultivate your corn with your Fordson and the Amsco Two Row Cultivator Plow 20 acres of corn per day.

See this plow before you buy.

INTEREST SHOWN IN TON-LITTER CONTEST

Nine Rush County Hog Growers Are Attempting To Produce Ton Litters In Six Months.

TOUR PLANNED FOR JUNE 8.

A great amount of interest is being shown in Rush county in the Ton Litter Contest, in which nine Rush County hog growers are attempting to produce litters to weigh a ton at six months of age. A committee was working in the county last week to inspect the litters and certifying to ear markings and nomination of the litters.

On June 8, beginning at 1:30 p.m. Rush County farmers will be given an opportunity to see how this work is being carried on and how the litters are progressing, as a tour is being arranged for that date. On this tour a few of these farms will be

visited and phases of hog production discussed by competent speakers. F. G. King of Purdue will be the principal speaker and will discuss some important question of hog production at each stop on the tour. The full particulars regarding the tour and the schedule of the stops will be given in the farm section of the Republican which will be issued Tuesday, June 6.

COUNTY NEWS

Sexton and Vicinity.

Frank Behymer has returned to his home in Elwood after visiting his sister, Mrs. J. T. Newkirk, here. James Bohannon spent the weekend in Rushville.

Mr. and Mrs. Vester Casey were in Indianapolis Saturday.

Mr. and Mrs. John Pratt of Newcastle spent Saturday night with their parents, Mr. and Mrs. T. Pratt. Mrs. William Kiser and baby and Mrs. Carol Clifton and daughter of Gings spent last Friday in Con-

nersville, the guest of Mrs. Harry Wright.

Mrs. Court Oldham and Mrs. Virgil Longfellow visited Mrs. Fred Newman at Beeson's Station Sunday.

Mr. and Mrs. Ralph Conner, Mrs. Brock, Delbert Hobbs, Mr. and Mrs. Harve Bradburn and children attended a family pitch-in dinner Sunday at the home of James Barnes at Rushville, honoring his birthday anniversary.

Mr. and Mrs. William Shobin and children of Gings visited at the home of Mrs. Joyce Sunday night.

Mrs. Enos and Guy Brook went to Richmond Sunday to hear Billie Sunday.

Mr. and Mrs. Fred Meyer and Mr. and Mrs. Martin visited at the home of William Meyer Sunday.

Mary Wilson of Rushville and Roy Evans of near Gings were the Sunday evening guests of Russel and Ruby Bradburn.

INDIANA FARM NOTES.

A difference of from 511 pounds of shelled corn to 931 pounds of gain

put on cattle in the feed lot, due to the kind of ration fed, is shown in a preliminary report of the results for two years of studying the cost of fattening cattle on 186 farms in Delaware, Randolph, Henry, Rush, Carroll and Clinton Counties. A copy of the report, giving interesting information on costs, rations fed and results of the study may be obtained free on request to the Farm Management Department, Agricultural Experiment Station, Lafayette, Ind.

The ten farms having the highest profits out of 100 typical Clinton county farms over a seven year period had twice as many acres in crops, 12% more livestock per acre, 20 percent higher crop yields, 54 percent higher returns per animal, and 44 percent more crop acres taken care of by each workman than the average of the 10 farms with lowest profits, according to figures reported by the Farm Management Department of Purdue University from a farm management study in that area.

BOYS CAMP TO CLOSE SUMMER WORK PROJECTED AT MEETING

Undertaking Started at Joint Session
of Rotary and Kiwanis Clubs
and Other Citizens

DR. E. L. HOUSE IS SPEAKER

Support is Pledged by Ministerial
Association, School Board and
Other Interests

TO INCLUDE WHOLE COUNTY

A. C. Cotton, Physical Director in
Schools, to be in Charge of
Boys' Work This Summer

A boys' camp to close the boys' work which will be done this summer under the direction of A. C. Cotton, physical director in the Rushville schools, was projected at a joint meeting at noon today of the Kiwanis and Rotary clubs, together with other citizens of the community, which was held at the Knights of Pythias building. The Pythian Sisters served the lunch.

A motion to adopt the report of the boys work committees of the two clubs, together with the recommendation of the directors of the two organizations, that such a camp be organized, was unanimously adopted following a short address by Dr. E. L. House, who has been lecturing here for the past ten days, and from a number of other citizens who endorsed the movement.

It was emphasized that the camp was not proposed as an undertaking of the two clubs, but the whole community, in which every citizen is expected to take a part and do his bit, whatever it may be, to insure the success of the camp.

Plans are practically mature for the establishment of the camp, though the site is indefinite, and it is not exactly determined what equipment will be needed. This will all be worked out shortly through committees so as to have the camp in operation by the last two weeks in July, as a climax to the work with boys which is to be done here the first two months of the summer school vacation by Mr. Cotton under the auspices of the Rushville board of education.

A report from the boys committee and the directors of the two clubs was made by W. A. Young and Dr. Frank H. Green, moved the adoption of the report and Supt. J. H. Schell seconded the motion. Short speeches endorsing the camp were made by the Rev. L. E. Brown, representing the churches and the Rushville Min-

MEN DECIDE TO CATCH UP ON THEIR KETCHUP

Newsom Pays a Fine For Assault
and Work of Setting Out 19,000
Tomato Plants is Under Way

OTHER CHARGES DISMISSED

The troubles existing between Alva Newsom and Elmer Brook, residents of near Carthage, terminated Monday afternoon in Justice Stech's court when Newsom pleaded guilty to a charge of assault and battery, and received a fine of \$1 and costs, and the two men decided to catch up on their few days' loss of planting 19,000 tomato plants for the canning factory at Carthage.

Charges of surety of peace and provoke were dismissed and the two charges against Mrs. Newsom also were dismissed by agreement, when the two men reached the conclusion that the tomato plants needed attention. The trouble which caused Newsom to attack Brook, is said to have been over the hiring of help to assist in setting out the plants.

According to Justice Stech the two men left the court in the best of spirits, and Newsom stated that he had paid one fine before Squire Hill at Carthage for the alleged assault, which according to law is void, because the prosecuting witness did not appear against him.

NEED OF MONEY IS EMPHASIZED

Rush County Centennial Finance
Committee Calls Attention to
Peoples' Responsibility

PLANS ARE TAKING SHAPE

Committee in Charge of Parade on
Thursday Afternoon, June 15,
Holds a Meeting

In a statement issued today, the finance committee of the Rush county centennial celebration, which will be held June 14 and 15, again emphasized the fact that the enterprise could not be conducted without money and that it is an event of such importance to the whole county that everyone in the county should be willing to do their part in supporting it.

The committee will begin soliciting in a few days, but in view of the fact that it will be impossible to see everyone, it is urgently requested that volunteer subscriptions be taken or sent to H. C. Flint, treasurer of the committee, at the Rush County National bank.

The plans for the centennial are gradually taking shape and the committees are all at work with the common aim of making the observance an epoch-making one in the annals of Rush county. Nothing is regarded of more importance than the work of the Home Coming Day committee, which hopes to send a personal invitation to every former resident of Rush county, no matter how long the stretch of time since they have called Rush county home.

The committee has pointed out repeatedly that the best results can not be obtained without the fullest co-operation of all the people of Rush county. This co-operation consists in sending to the committee, P. O. Box 132, Rushville, Ind., the names and addresses of all persons who formerly lived in this county, and if possible giving the township in which they lived.

At the meeting of the parade committee Monday night, plans were outlined to make the parade on Thursday afternoon one of the most attractive features of the celebration. Frank McIlwaine is general chairman of the committee and three committees were selected to be responsible for the various sections. The committee also selected one chairman for each township, the chairman being authorized to select his own helpers.

ALL EYES TURNED TOWARDS INDIANA

Nation Listens For Keynote Address
to be Delivered by Senator James
E. Watson Wednesday.

SUBMITTED TO PRESIDENT

Will Sound Basic Principles Upon
Which Republicans Will Seek
to Retain Majority in Congress

Candidates To Be Named

Candidates standing for nomination at Republican State Convention:

Secretary of State—Ed Jackson.

Auditor—William G. Oliver of Franklin.

Treasurer—Ora Davies of Kokomo.

Superintendent of Public Instruction—Ben Barris of Washington.

Clerk of Supreme and Appellate Courts—Patrick J. Lynch of Indianapolis (incumbent) and Henry J. Roberts of Carmel.

Judge of Supreme Court—David Myers of Greensburg.

Judges of Appellate Court—Charles Remy of Indianapolis; Solon Enlow of Danville; Willis C. McMahan of Crown Point and Alonzo Nichols of Winchester.

All candidates are unopposed except Patrick J. Lynch. They are all incumbents, except Lynch's opponent, Henry J. Roberts.

By FRED G. JOHNSTON

(U. P. Staff Correspondent)

Indianapolis, Ind., May 23—The nation again turned its political ear toward Indiana today and listened for the republican keynote which Senator James E. Watson will sound before the state convention Wednesday.

Watson's speech will be the first important political pronouncement in America's congressional and senatorial election campaign.

It will apply directly to the senatorial fight in Indiana between Albert J. Beveridge, republican, and Samuel M. Ralston, democrat, and to the congressional races in the state.

Indirectly, however, it will sound the basic principles upon which the republicans will seek to retain their majority in both branches of congress through elections next fall. It will determine the complexion of republican campaigns in every state in the union so far as national issues are concerned.

The speech has been prepared with great care and with a full sense of

COLUMBUS PASTOR DELIVERS ADDRESS

W. H. Book Speaks at Commencement of High School and Eighth-Grade Graduates at Fairview

COLE'S ORCHESTRA PLAYS

The Rev. W. H. Book, pastor of the Tabernacle Christian church of Columbus, Ind., delivered the combined commencement address of the senior class and eighth year graduates of the Fairview school, Monday evening, in the auditorium of the school building. The Homer Cole orchestra of the Main Street Christian church of this city, furnished the music for the occasion.

The high school graduates were John Baker, John W. Boyd, Roy Kramer, George Cruce, Theodore Custer, Augustus Fry, Esther Groce, Gladys Groves, Frances McCrory, Almer Parker, Gleta Reed, Harry Ren, Herbert Saxon, Lillie Smith, Florean Spurrier, Wanetta Smiley and Maxine Vandeventer.

The eighth year graduates are as follows: Mary Helen Saxon, Freda Banks, James Cooney, Grace Spurrer, Earl B. Ritter, May Miller, Neva Rich, Robert Cregar and Thelma Bradburn.

GRAND JURY CALLED TO REPORT FRIDAY

Nature of Their Investigation Has
Not Been Disclosed, But Session
May Be Short

\$50,000 ESTATE TO BE SOLD

The grand jury has been called to report for service on Friday morning, according to an order issued today by Judge Sparks, and the nature of their investigations has not been hinted. It is believed, however, that the body will be in session only one day, because the custom of meeting on Saturday is never followed here.

A civil suit involving the land left by Ella Macy, deceased, has been filed and action passed upon by the court. The suit, ex parte Mary Hill et al., was for the partition of real estate, and the court decided that the land could not be divided, and a sale has been ordered.

Elwood Macy and William Hinchshaw were appointed by the court to act as commissioners and sell the property, according to instructions laid down by the court. The two commissioners were placed under \$50,000 bond, which is the estimated amount of property involved in the estate left first by Martha C. Weeks, and later by Ella Macy, who expired last week in Oregon.

Orange M. E. Congregation Met in Wagon Shop After Organization 100 Years Ago

First Church Erected in 1838 and
Replaced by Present Building in
1872 at Cost of \$3,000. When
Pastor Started to Raise Remainder
of Indebtedness and People
Began to Leave, He Locked the
Door and Was Successful.

A brief historical sketch of the hundred years history of the Orange M. E. church, describing the difficulties of the pioneers, was read at the centennial celebration held at the church Sunday by Mrs. Gus Bowen of Orange and is as follows:

The Methodist church at Orange had its origin in a class that was organized in 1822 at the home of Judge Gregg two miles west of Orange, by the Rev. John Havens.

The class consisted of Judge Gregg and wife, Samuel Rounds and wife, Noah Dawson and wife, Mrs. Sara George, Hugh Wilson, Thomas Dawson, John Merrick, Sr., and John Merrick, Jr.

The quarterage paid by the whole Connersville circuit the first year was \$36.124 of which the class at Orange paid \$2.124. The pastor received \$31.874 and the presiding elder \$4.25.

This class was on the Connersville circuit until Columbia circuit was formed in 1851. For some time the meetings were conducted in the wagon shop of John Merriek and in 1838 the first house of worship was built. This building was used until 1872 when the present building was erected at a cost of \$3,000.

J. W. Lindale, who is ninety-two years old, was on the building committee and he and Basil Rhodes started out the first Monday in March to collect \$1,000 before the building could be commenced. They succeeded in raising this amount and another \$1,000 was raised at the dedication.

Dr. Andrus of Asbury University officiated at these exercises. A few years later the Rev. J. W. Mellender was pastor and one Sunday announced he would raise the remaining amount of indebtedness and some of the congregation began to leave. He walked back to the door, locked it, put the key in his pocket and raised the remainder of the debt.

In the history of the church over eighty ministers have preached from this place for when the circuit was so large two ministers had charge of the work. Seventeen different presiding elders have presided.

SAYS THAT NO MAN CAN HEAL HIMSELF

Dr. E. L. House Asserts, However,
That in Earnest Co-operation There
is Success to be Achieved

HOW TO TRAIN YOUR WILL

Speaker Declares Sin is Misdirection of The Will—"The Psychology of Love" Tonight

Dr. E. L. House gave two strong addresses Monday to two fine audiences. That the lectures are gripping is seen in the fact that each day and night bring larger numbers to hear him. Tonight comes one of the great lectures of the series, "The Psychology of Love," which is said to be a wonderful address. Monday afternoon, Dr. House spoke on "How to Heal One's Self." He said:

"No man can heal himself, but in earnest co-operation there is a good success to be achieved. What is this cooperation? It demands knowledge. It is dangerous to move without knowledge. We must know about the mixing of foods, if we would be well. Ignorance may poison the system. It is important to know how to run an engine, it is more important to know how to run one's self. Science brings us the conscious and the subconscious realms of mind to help us get healing. The conscious mind directs and governs the subconscious mind. The first is the architect, the second is the builder. Through conscious direction the subconscious mind will change the chemistry of the body, eradicate disease, renew the tissues, and repair the wastes of weakness. The science of being, often shows that greater efficiency for healing can be found in the patient than in the doctor. Mental expectation and anticipation are involved in every form of treatment.

"How to heal one's self demands spiritual knowledge. The superconscious mind in you is the spirit, or God in you to help and lead you into spiritual attainments. Through the spirit mind God can enter your life to give you help. Mental healing is your own ability, giving you a certain restricted power that does remarkable things, but spiritual healing is having the All Power in you. Just as the light has back of it the power house, so back of you is God. God can be underneath our load and weaknesses and is able to give us help. How to heal one's self demands faith. First, get scientific faith; that which is born of knowledge. Remember that nature is working for your cure and that even the body makes anti-toxins that help out. Get spiritual faith. Lay hold of the facts in the Bible. "According to your faith be it unto you." Ask the Lord to beget within you greater faith, and it will come. Affirm your position in the Lord; it will help you. Be no bigot. Work with an honest physician who is trained in the knowledge of the body. Join hands with the osteopath and the chiropractor, for they often help nature. But never forget the changeless fact: "I am the Lord that healeth thee."

Last night he spoke on "How to Train Your Will." The speaker said that what a man chooses he is responsible for, and he is not responsible for what another may make him do. Sin is misdirection of the will, the choosing of a lower in the presence of a higher.

"Man needs an enlightened will so as to choose and will correctly," said Dr. House. "What is right must be the great aim of a life. You can develop a will as you can develop a body, or a mind. But there is no institution that teaches how to develop a will. Prof. James said he would rather have his boy have a strong will than to have a strong intellect without a good will. Often we need aroused will. Many have gifts within, but have not yet been aroused to the best of life. Look out for China when she gets her aroused will. She will take her place among the mighty nations of the earth then. A strong will is most essential, because one man can have a sick will as well as a sick body.

What I can do, I ought to do;
What I ought to do, I can do;
What I can do and ought to do
By the grace of God I will do.
"A focused will makes a fine path"

LIVE STOCK FACTS

OAK LEAF POISONING DANGER

Most Fatal Cases Occur in Spring When There is a Scarcity of Green Forage.

(Prepared by the United States Department of Agriculture.)
Oak leaves, if eaten continuously by cattle, produce a sickness which frequently proves fatal. Investigations conducted by specialists of the United States Department of Agriculture show that oak leaf poisoning, the specialists say, occurs in the spring, for at that time there is a scarcity of green forage on many ranges and the craving which stock have for green

Where a Small Quantity of Alfalfa is Fed in Connection With Oak Leaves the Animals Are Not Injured.

Food leads them to eat the leaves in excessive amounts. In order to cause sickness, however, oak leaves must be eaten almost exclusively. If eaten with other feed, the animals are not injured. It has been found experimentally that as small a quantity as 3 pounds daily of alfalfa hay fed in connection with oak leaves prevented poisoning.

Observations on the range and experimental feeding both show that some cattle may eat oak leaves for a long time with no definite bad effects, and some will even eat them exclusively, with no harm. Generally speaking, those that are injured show the results only after eating a considerable quantity through a rather prolonged period, usually from 10 to 35 days. The specialists point out that the hanks on many ranges furnish a most important element in summer feed which additional sources of forage are available, but they urge that care be exercised during the spring that cattle be not admitted to summer range at too early a date, for oak leaves are well advanced before the appearance of the grasses.

GOAT MEAT QUITE SUPERIOR

Most of Product Reaches Market as Mutton and is Distinguished by Sweetness.

Goat meat is seldom found on the market as such, yet the average number of goats slaughtered each year from 1910 to 1920, inclusive, was 141,487. It is probable that most of this meat reaches the consumer as mutton, which it resembles closely, as there are few cities that require it to be marketed under its own name. In cities and towns adjacent to the range country, however, Angora wethers are freely marketed as such and the meat is consumed without discrimination by the buyer. When received in large numbers these wethers usually sell at about 60 per cent of the price paid for sheep wethers.

The reduced price of goat meat is doubtless attractive to the consumer, whether he knows what he is getting or thinks he is buying mutton. According to Farmers' Bulletin 1203, The Angora Goat, recently issued by the United States Department of Agriculture, goat meat is usually superior to mutton that can be bought at the same price. Some consumers say that they are able to distinguish it from lamb and mutton by a characteristic sweetness.

GIVE RAM RIGHT ATTENTION

During Breeding Season He Should Have Supply of Grain and Access to Good Pasture.

The ram needs grain for several weeks before and during the breeding season. At least a pound a day of equal parts of oats and bran should be fed, together with good quality alfalfa or clover hay. Do not keep him closely confined, but allow him access to pasture. Avoid heavy feeding of silage or roots during the breeding season.

Small Digestive Tract.
The digestive tract of the calf is comparatively small, therefore frequent feedings of small amounts during the first month is imperative.

Cattle and Sheep on Clover.
Cattle and sheep do well on clover pasture, but should not be turned in when hungry or while a dew is on.

Healthy Pigs on Clover.
Pigs on clover are healthy, and have good bone and constitution—points of great importance in breeding stock.

The Daily Republican

ON ANY RUSH COUNTY RURAL ROUTE,

One Year . . . \$4.00

The Indianapolis News

One Year . . . \$4.00

BOTH PAPERS, ONE YEAR

For \$6.50

You know what The Daily Republican is, its quality of news, its ability to serve you with all the news of the farm, stock markets, etc. And you know what the Indianapolis News is—it should be your State Paper.

YOU CAN'T BEAT THE COMBINATION

Either paper, if taken separately will cost you \$4.00 for one year on the Rush County Rural Routes—but if you act quick you can get both papers now for one year for

\$6.50

It doesn't matter when your time expires to either paper, if you are a subscriber now—your time can be extended one year from expiration date.

SAVE \$1.50 NOW

COUNT ON CALUMET

If you want every bake-day to be a success—if you want positive results at an economical cost—use and depend on

CALUMET BAKING POWDER

Bakings are always uniform in the millions of homes where it is used. Everything served is just right—tender, light, perfectly raised and thoroughly wholesome.

Failures are unknown.

Guard the purity of your bakings—use Calumet. It's pure in the can—pure in the baking. Contains only such ingredients as have been officially approved by the United States Pure Food Authorities.

Order Calumet today—it will pay.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

—Mrs. Charley Caron is spending a few days in Indianapolis visiting friends.

—Miss Flora Williams attended the commencement at Fairview Monday night.

—Mr. and Mrs. Edgar Winchell of Knightstown visited friends in Orange Monday.

—Miss Naomi Newhouse went to Indianapolis this morning where she spent the day.

—Will M. Frazee went to Indianapolis today to attend the republican state convention.

—Mrs. Elbert Worsham of Chicago, Ill., spent Monday with Mrs. Ida McKee of Orange.

—Mrs. E. L. Marsh of Indianapolis is spending a few days in this city visiting relatives.

—Walter M. Pearce was called to Newsville today on account of the illness of his father.

—Mrs. Edwin Lee and Mrs. W. H. Young attended the G. A. R. convention in Connorsville today.

—Mrs. Mary M. Glessner was called to Delaware, Ohio, Monday to attend the funeral of her uncle, A. I. Moses.

—George C. Wyatt went to Indianapolis today to attend the meeting of the Indiana Funeral Directors' association.

—George Cohen returned to this city this afternoon from Richmond where he has been spending a few days on business.

—Mrs. May Wainwright and daughter Winifred have gone to Greensburg to visit their grandmother and other relatives.

—Miss Edith George, who taught in the Waynesville, Ohio, school during the winter, has returned to her home in Orange to spend the summer vacation with her parents.

—Mrs. T. H. Cavanaugh of Indianapolis, formerly Miss Maude Hunt of this city, was called here Sunday by the serious illness of Miss Rose Berry, who died Monday evening.

—Miss Catherine Hitt and Dixie Samuels returned to Indianapolis Monday after a motor trip to this city where they spent the week end with Miss Hitt's parents, Mr. and Mrs. William Hitt.

—H. W. George and Ernest George of Kokomo and Mrs. Melissa Henry and daughter Marian and Mr. and Mrs. Milton Bainbridge of Greens-

burg attended the anniversary celebration of the Orange M. E. church Sunday.

—D. D. Ball was in Indianapolis today on business.

—C. W. Duncan was in Indianapolis this afternoon on legal business.

—Clifford McGinnis and Mrs. Rema Offutt were among the Indianapolis passengers this morning.

—Judge Will M. Sparks went to Indianapolis this morning, and was to return this afternoon by the way of Greensburg.

—Mr. and Mrs. W. S. Waddell who have been visiting Mrs. Waddell's parents, Mr. and Mrs. George Gray, have returned to their home in Indianapolis.

—Mr. and Mrs. Wyatt Dewitt of Indianapolis have returned home after a week end visit with Mrs. Dewitt's parents, Mr. and Mrs. W. A. Caldwell of this city.

—Mr. and Mrs. A. J. Kidd of Brazil are visiting Mr. and Mrs. G. P. McCarty in this city, and attending the State Encampment of the G. A. R. at Connorsville this week.

—Virgil Jenkins of U. S. Marine Corps, who is stationed in South Carolina, and Mr. and Mrs. O. R. Jenkins and Mr. and Mrs. William Jenkins of near Cincinnati were the week end guests of Mr. and Mrs. William Eck of North George street.

ALL EYES TURNED TOWARDS INDIANA

Continued from Page One
what it portends. It has been drafted in Washington and submitted to President Harding and republican party leaders.

Senator Watson gained the right to deliver it when he threw the republican senatorial nomination to Albert J. Beveridge instead of to his colleague, Senator Harry S. New, and thus won control of the state organization.

John T. Adams, republican national chairman, and Secretary George Lockwood will attend the convention. They probably will address the convention on its first day, when oratory and love feasting will be in order. Beveridge, Governor McCray, Watson and Mayor Lew Shank of Indianapolis will also be among the speakers.

NEED OF MONEY IS EMPHASIZED

Continued from Page One
The sectional chairmen named were: J. T. Arbuckle, historical section; Harold Pearce, industrial section, and M. S. Ball, fraternal section. The township chairmen appointed were as follows:
Noble, John F. McKee; Posey, Frank Lawrence; Richland, Charles Spencer; Orange, George Hardesty; Anderson, Edgar Thomas; Walker, Alba Hurst; Ripley, M. F. Lovett; Union, Will McMillin; Center, Guy McBride; Washington, Ed Aiken; Jackson, O. M. Siler; Rushville, Rue Webb.

The finance committee is again calling attention to the responsibility of Rush county in financing the centennial because it is their celebration, made the following statement today:

"One very important feature of putting on any kind of an enterprise is the finance to put it over."

"Our Rush county centennial celebration is no exception to this rule."

"We trust that you will show your loyalty to the county that has been the home of your forefathers and has produced your wealth, by your financial support."

"Please do not think this enterprise is for the business men alone and think the business men should finance it. We hope that every citizen of the county will feel that he or she has a part in this great event."

"When the finance committee, which is composed of the following men—H. M. Cowing, R. C. Hargrove, S. L. Trabue, G. P. Hunt, E. R. Casady, John McCoy and H. C. Flint, calls upon you, have your contribution ready."

"As it will be impossible to see you all, we ask that you call or send your contribution to the Rush County National bank, in care of H. C. Flint, treasurer."

Frederick, Okla. —Two women fainted and several teams of horses staged runaways on Main street here as 1,000 Ku Klux Klansmen paraded carrying banners warning married couples to "live true" and denouncing joy riding.

Easy.
"George, you should get married," advised the married man. "It is wonderful to have a home waiting for you when you return at night. There is ecstasy in caring for a garden and a lawn; you can raise a dog from a pup, children are adorable and no trouble at all, a wife is an inspiration, and even if she does get suspicious you can always talk her out of it." "I could if I could lie like you can," said the bachelor, thoughtfully. —Wayside Tales.

PIONEER RESIDENT IS DEAD

Miss Rose Berry, Age 88 Years, Expires At Home In This City.

Miss Rosanna Ashmore Berry, age 88 years, a native of Rushville township, expired Monday night about six o'clock at her home, 406 East Ninth street, death being caused from an illness of several weeks of paralysis. The deceased was well known here and was the sister of the late Captain E. H. M. Berry, whose widow died a few years ago. The deceased leaves no near relatives, excepting Hobart Berry, a nephew of this city.

The funeral services will be held at the late home on Wednesday morning at ten o'clock in charge of the Rev. C. S. Black, and burial will take place in the East Hill cemetery.

Boys Camp To Close Summer Work Projected at Meeting

Continued from Page One

"He never has a spare moment. Boys now have the whole summer planned, the number of times they will go swimming and the other thing they will do. Gangs are being or have been organized; some under good leadership and some under very bad leadership. What we want to do is to be a gang leader for every boy who needs one. It will be a wonderfully fine thing for the summer boys' work to close up with a camp."

Dr. Sexton was called on and said that his experience as a boy taught him that anything done for a boy would be appreciated and Mr. Allen declared that the adoption of the motion for a camp would be a great source of satisfaction to the board of education. He said the overprivileged as well as the underprivileged boy needed it.

Mr. Gary, speaking as a citizen said he believed the people of this county would support the plan and Mr. Trabue, as president of the Kiwanis club, said the plan should not be regarded as an undertaking of the organizations but that they should be only the mediums through which it is presented to the community.

New York —Girls, never take a man's promise without a ring to back it up," was Miss Winifred Lynch's warning as she settled a breach of promise suit for \$20,000.

New York —Picking his teeth with a match caused the death of Charles Castellano. It ignited suddenly and he threw it hastily from him into a can of gasoline, which exploded, setting fire to his clothing.

FROM GIRLHOOD TO WOMANHOOD

Woman Relied Upon Lydia E. Pinkham's Vegetable Compound

Emporia, Kansas. —"I began using Lydia E. Pinkham's medicines years ago when I was a girl."

For several years I had severe pains at menstrual periods, making me very weak and interfering with my regular duties. I tried several remedies without obtaining relief. I was induced to try Lydia E. Pinkham's Vegetable Compound by friends and it restored me to normal health. I often have occasion to do recommend your Vegetable Compound to my friends who have troubles similar to my own. You may use these facts as a testimonial."

—Eva Aldrich, 218 Union St., Emporia, Kansas.

There are many women who first used our Vegetable Compound during their girlhood days. They found it a valuable help during trying periods. In later years they use it whenever they feel those annoying symptoms which women often have.

Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is prepared carefully from the best quality of medicinal plants, whose properties are especially adapted to correct the troubles women have.

Eating Ourselves To Death

In the days of our forefathers men were keen of mind, active of body and rugged of honesty.

They ate simple food and not too much of it.

The generation of today is not to be compared with that of 100 years ago. Our bodies are not in the same pink of condition, and our minds are more or less indifferent except where in the subject pertains to the profit or pleasure of self.

The reason is simple. Too much to eat and too much of it eaten.

It is true that we have made wonderful forward strides in the past Century. But they are no greater than the opportunities warrant. Then, too, the brains that produced these successes were in the heads of certain individuals, and those individuals were not gourmands.

The fact is, we are literally eating ourselves to death slowly, but surely. We eat as our fancy dictates, and we eat to excess of the wrong food.

If we really knew the proportion of the population that is afflicted with indigestion, or constipation, or both, the figures would be staggering. Correct eating in moderation does not produce either of these complaints.

The child that is stuffed and pampered from the time it leaves its mother's breast will not produce either a normal mind or body. The system can not properly assimilate the loads of stuff that are shoveled into its stomach. Mental deficiency

SAP AND SALT
BY Bert Moses
Sap-and-Salt-in-the-Woods, Ashland, Oregon

The more experience you have, the less sure you are about anything.

What you "say back" is what starts the fight.

Happiness is merely a matter of having a good time without going into debt for it.

Your mind will improve faster if you stop arguing and begin to discuss.

It is often the case that women who pretend to be shocked are really delighted.

How to get a raise is the male problem; how to keep thin, the female.

HEZ HECK SAYS:
"Women who paint and pad are guilty of false and misleading advertising."

The Hodge-Podge
By a Paragrapher With a Soul

Jealousy is an involuntary compliment one pays to another.

Cupid's dart tipped with kisses, hits a Miss and makes her Mrs.

Repeated suggestions on the same topic make a path in the mind just the same as walking across the grass in the same place every day. Hence advertising.

A man who has a good opinion of himself is easily satisfied.

The man whose conscience hurts him is much better off than the man whose conscience is dead.

Neglect of small things will never lead to attention to big things.

Driving a man to drink is more difficult than it once was.

Advertising is the only thing that works twenty-four hours a day and never needs any gas or oil.

Few men achieve greatness until a cigar is named after them.

SAYS THAT NO MAN CAN HEAL HIMSELF

Continued from Page One
tern that draws things to your aim and object. A diffused will scatters away from you. Never will anything unfavorable to your success. Get a persistent and obedient will and you will fit into God's plans for you."

For Once We Agree With Him

(Indianapolis Star)
Geno Debs says he ought to be in prison with the rest of the war law violators, and for once there is no argument.

Lot of Truth in This

(Greenville Piedmont)
The things money will not do are not as few as the things people will not do for money.

Springfield, Ill. —The stork overtook a C. P. & St. L. Passenger train at Cantrall, 12 miles north of here, and delivered a baby daughter to Mrs. Lyman Owens of Petersburg who was enroute to a local hospital. Trainmen held the train 40 minutes and then brought the mother and child to this city.

and bodily ailments are the inevitable result.
We may eat ourselves to death, if we prefer. That is purely our own affair.
But we have no right to stuff a child beyond capacity with food that is injurious to a body not yet matured.
The child knows no better but we do, or should.

MOST EX-SERVICE MEN
HAVE BEEN EMPLOYED

Report of American Legion Employment Division in This State
Is Most Satisfactory

MOST JOBS ARE PERMANENT

(By United Press)
Indianapolis, Ind., May 23.—Almost all of the unemployed ex-service men in Indiana have been employed.

This was the report of the Indiana division of the American Legion today in announcing its success in the drive to place 700,000 unemployed ex-service men throughout the U. S. inaugurated March 20 by the American Legion.

They are not necessarily taking emergency jobs, such as construction work, clean up work etc., but they are being placed in positions similar to those they held before they went to war, according to the report.

Although the report said the Legion has no definite figures yet the census has not been quite completed but they base their assertions on optimistic statements from locals throughout the state.

RUSHVILLE SHOWS HIGH CLASS BALL

High School Team Hits When Hits
Are Needed and Defeats Con-
nersville, 7 to 4

GOOD PITCHING A FEATURE

Rushville Collects Nine Bingles,
Many of Them For Extra Bases
—Runs Wild on Bases

The Rushville high school displayed a very high class brand of ball playing here Monday afternoon, when they defeated Connersville "high" by the count of 7 to 4, in a game that was well played by both sides, and featured by the excellent pitching of Lakin for Rushville and Ridge for the visitors, as well as good fielding by both teams.

Both teams made several bobbles in the field, but the runs for the most part were well earned, due to extra base hits. The visitors scored two runs in the first inning, which were due to a two base hit, and a couple of errors, but the locals got one of these runs back in the same inning, when Connersville also made an error, and Stewart singled which scored Poston, who was on base.

In the second and third innings the score remained 2 to 1 in favor of Connersville, and in the last of the fourth, Rushville added three markers when Poston, first up, doubled and Stewart was safe on an error. Casady hit a high fly to left, but Poston did not make home, and when Frazee singled, both Poston and Stewart scored, with Frazee taking second on the throw. Headlee hit a fly and sacrificed Frazee to third, and when Frazee started to steal home, the third baseman overthrew and Frazee scored.

In the first of the fifth Connersville put across another run and tied the score at four points in the first of the sixth. The score was not tied long, as Rushville went two more in the lead in the last of the sixth, and scored another one in the eighth, holding the visitors without any more runs in the last three innings.

Stewart, third baseman for Rushville was at bat four times and got on base each trip, getting three hits, and reaching first on an error, and three of the trips went for runs. Poston also was on base three out of four trips to the plate, and counted for three runs, and Frazee got three hits out of four times up, but died on base twice, scoring only one of the runs.

The line-up and summary:
Rushville AB H R A PO
Nipp, 2b. 3 0 0 1 2

MANAGER STALLINGS ASSERTS HE HASN'T TALKED TRADE WITH TIGERS

Stallings and His Crack Outfielder Archdeacon.

George Stallings, owner of the Rochester International league baseball club, denies that Outfielder Archdeacon of his club would go to the Detroit Americans for two, other players and a cash consideration.

"No less than 17 clubs are after Archdeacon," said Stallings, "and I haven't even talked to Detroit about such a deal. At the end of the year I may sell my whole ball club, but right now I do not propose to sell a single player."

State league include the veteran John
Gonding, one time catcher in the
Western league, and Earl Snyder, al-
so with some reputation in minor
league ball.

UMPIRE'S REJOINDER SQUELCHES PITCHER

Moriarty Resorts to Drastic
Measures to Curb Hurler.

Twirler Who Pitched Nothing but
Strikes Caught Off His Stride and
Could Not Locate Plate—Is
Given Deserved Call.

Sometimes an umpire is forced to
resort to drastic measures to silence a
protesting athlete. George Moriarty,
American league umpire, was up
against such a situation one day last
summer.

A certain American league pitcher,
who throws nothing but strikes, if you
would take his word for it, was doing

Umpire George Moriarty.

the pitching. Ordinarily, said pitcher
is a mighty hard man to hit. This par-
ticular occasion was one of his few off
days. He was wild, and when he did
manage to get one over the batter
would take all kinds of liberties with
it. At such times it is always the cue
for the pitcher to alibi himself at the
expense of the umpire.

Moriarty, who was umpiring balls
and strikes, was displeasing the pitch-
er most of the afternoon. The pitcher
managed to win his game despite the
fact that the opposing team made
eight runs. In the eighth inning, after
Moriarty had failed to call a certain
batter out on strikes, the pitcher let
the world know that he thought the
umpiring was sour.

"That is 14 you have missed on
me!" he yelled.
"How many?" asked Moriarty in a
voice equally loud.
"Fourteen!" replied the pitcher.
Then in a voice that carried all over
the park, Moriarty replied:
"Some one must have told you to
say that; you can't count that far."

POINTERS ON RUGBY RULES

One Bad Feature of Canadian Style Is
Mass Play Permitting Pushing
of Ball Carrier.

A rugby foot ball coach points out
that one bad feature of the Canadian
style of play is that the mass play
permits the pushing and assisting of
a ball carrier. One feature which the
American game could adopt with
profit, he points out, is the rule pre-
venting "stalling." In Canada the ball
must be in play 20 seconds after a
down is called.

The Score Board

Yesterday's hero—Deacon Scott,
Yankee short stop, made several
spectacular plays and drove in the
run with a single in the thirteenth
inning that beat the Browns, 4 to 3.
Babe hit his first one.

Falling down at the bat and in the
field behind Art Nehf, the Giants
lost to the Reds, 7 to 2. It was four
losses in a row and was the seventh
game lost out of eleven on the west-
ern trip.

Hornaby hit a homer in the eighth
inning with two on and tied the
score, but errors by Stock and Ain-
smith gave the Braves two runs in
the thirteenth inning and the Cards
lost, 8 to 6.

Zach Wheat's homer in the ninth
inning helped the Robins beat the
Cubs, 3 to 0. Vance let the Robins
down with four scattered hits.

With two men on in the 9th, Clark,
Tiger pinch hitter, rapped out a
homer and tied the score with the
Athletics. It went 11 innings and
ended 5 to 5. Cuthlaw, Heilman
and Walker also hit homers.

Lefty Cooper held the Phils safe
all the way while the Pirates hit
Hubbell hard and won, 5 to 0.

Spencer hit a single, double and
triple, and helped the Indians beat
the Red Sox, 7 to 1. Cleveland got
only two hits after the third inning.

Red Faber was at his best in the
pinches and the White Sox beat the
Senators, 4 to 3. President and
Mrs. Harding attended the game.

This Time Last Year

American Polo team was beaten
in London by the Ranelagh Club
4 to 1 in a practice game.

Tilden recovered from an attack
of indigestion in Paris and announ-
ced he would be able to play in the
hard court tennis championships.

Penn State won its twentieth con-
secutive game beating Pittsburgh by
a score of 5 to 2.

Carl Mays was indefinitely sus-
pended and Wally Schang was fined
\$25 for a run in with Umpire Chills.
Philadelphia beat the Reds and
got out of last place.

DYE STOCKINGS

OR SWEATER IN

"DIAMOND DYES"

"Diamond Dyes" add years of wear
to worn, faded, skirts, waists, coats,
stockings, sweaters, coverings, hangings,
draperies, everything. Every package
contains directions so simple any woman
can put new, rich, fadeless colors into
her worn garments or draperies even if
she has never dyed before. Just buy
Diamond Dyes—no other kind—then
your material will come out right, be-
cause Diamond Dyes are guaranteed not
to streak, spot, fade, or run. Tell your
druggist whether the material you wish
to dye is wool or silk, or whether it is
linen, cotton or mixed goods.

Sporting Squibs of All Kinds

The Ice palace, of Philly, will hold
boxing contests all summer.

London Banks Football (soccer) as-
sociation, has twenty-three clubs and
1,200 registered players.

Joseph Guillemot, French distance
runner, may be forced to retire from
active competition because of his
health.

Walker, the St. Mirron center for-
ward, with 38 goals in 31 games,
leads all the scorers in the Scottish
Soccer league.

Mrs. Molla Bjurstedt Mallory, Amer-
ican woman tennis champion, will seek
the world's championship on the courts
of the famous Wimbledon club in Eng-
land again this season.

A helpful sign for rowing in the
northwest section of the United States
is the introduction of the sport to stu-
dents of Reed college, Portland, Ore.,
and at University of British Columbia,
Vancouver.

William, 1:58 1/2, is again in training
and as his ailing leg seems to be in
better shape than at any time last
year, should make things very inter-
esting for those 2:05 pacers through
the West.

It is estimated that 15,000 trotters
and pacers are in training for the har-
ness racing season in this country and
Canada. They will appear on approxi-
mately 1,000 tracks, many of which
will not permit betting.

It is the Style To Wear Starched Collars

This is one good reason, for
wearing starched collars—but
there is another reason even
better. To wear starched col-
lars is good business.

Clothes may not make the
man—but used rightly they
will help.

Wear starched collars—and
when you want them laundered,
call us. We will return them
immaculate, white, clean, and
a credit to yourself.

Just use the phone, and our
representative will call.

SOCIETY

Edited By Miss Edna Krammes
Phone 1111

The Psi Iota Xi sorority will be entertained this evening at the home of Mrs. Fred Arbuckle in West Second street. All members are urged to be present.

The Band of Workers of the First Presbyterian church will not meet this Wednesday afternoon on account of the Dr. E. L. House lectures at the Christian church. The meeting has been postponed for two weeks.

Mr. and Mrs. Orville Porter and children entertained Sunday at their home northwest of the city with a delicious pitch-in dinner. The guests were Mr. and Mrs. Elsworth Kiser, Mr. and Mrs. William Kiser and

daughter, all of Sexton, Mr. and Mrs. Carrol Clifton and daughter and Glen Clifton of Gings and Mr. and Mrs. Elmer Porter. The affair was in honor of the birthdays of Mr. and Mrs. Orville Porter, Elmer Porter, Carrol Clifton and Mrs. Elsworth Kiser.

Mr. and Mrs. Frank Early entertained Sunday with a birthday dinner at their home in West Third street, honoring the sixty-sixth birthday of the latter. A bountiful birthday dinner was served at the noon hour to the following guests, Mr. and Mrs. Jesse Black and family, Mr. and Mrs. Robert Tatlock, the Misses Florence Alsop and Della Ren, and Mrs. Ida Hamilton of Brownstown, Ind.

Mr. and Mrs. Luther B. Downey entertained at dinner today, at their home 702 N. Sexton Mrs. William R. Hunt of Anderson and Mrs. Charles Lyons of Knightstown.

At the meeting of the Tri Kappa sorority held Monday evening at the home of Mrs. Earl H. Payne in North Main street, plans were arranged for the home talent play entitled "Kathleen," which the sorority will give the latter part of June. Before the business meeting, the nineteen members present were entertained with a radio concert. Delicious refreshments were served at the close of the meeting.

New York.—Because he refused to leave his home in pajamas and treat a patient in a taxi, Dr. Shirley Sprague found a fist fight on his hands. Scantily clad, on his door step, he knocked out the solicitor for the patient.

Ossining, N. Y.—A bootleggers bill for drinks served a Sing Sing employee was refused by the warden.

REGARDS ATTEMPT AS BEING FUTILE

Rep. Volstead Declares Any Effort in Congress to Weaken Volstead Act Will Be Beaten

CHALLENGES THE LIBERALS

Rep. Hill Makes Campaign to Inject Wet and Dry Issue in Fall's Congressional Elections

By JAMES T. KOLBERT
(U. P. Staff Correspondent)
Washington, May 23.—Any attempt in congress to weaken the Volstead act to permit manufacture of beer and wine "will be battered down and beaten" Representative Andrew Volstead of Minnesota, author of the prohibition, declared to the United Press today.

Volstead challenged liberals in the House to "do their worst" in their campaign to give local option on the wet-dry issue to the different congressional districts. He regards their attempt, it was made known as being "knowingly futile."

The dry leader will take an active part in the coming congressional campaign on the side of prohibition.

An out and out campaign to inject the wet and dry issue into this fall's congressional elections is being made by Representative Hill of Maryland and other Republican "liberals" in the lower branch of congress.

They are now circulating petitions by which they hope to force a vote on congress on a bill giving congressional districts the right to say whether they shall have wine and 2.75 per cent beer for home use only and to be taxed twenty cents a gallon.

Discussing what he termed the "utter futility" of the liberalization movement, Volstead said quoting in part of a campaign pamphlet just issued:

"The time is here when every man and woman who loves their country should support its constitution and obey the laws enacted to enforce it. All liberty and security rest on law. License to sell beer and wine contained in a prohibition law makes it impossible to force. It is as indefensible to vote for such a non enforceable law as it is to vote directly to violate the constitution.

"The only defensible position for a member of congress to take is to sustain the law in enforceable form. There is only one defensible position, for a judicial officer and that is to construe the law so as to carry out its manifest power. There is only one defensible position, law abiding citizen and that is to obey the law and support those in public office who are honestly endeavoring to support it. More than two dozen wet organizations are making the amendment of candidates pledged to support a beer and wine amendment to the national prohibition act an issue in the primaries.

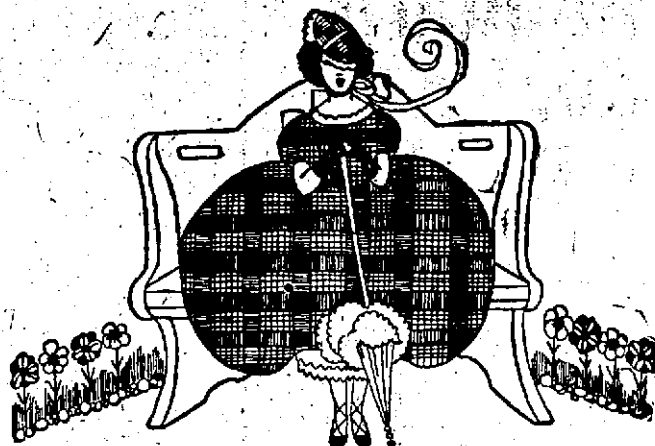

"Those who seek to destroy prohibition recognize that the public cannot be persuaded knowingly to restore the saloon or the sale of whiskey. They are camouflaging their demands by asking for what they call light beer and wine."

The Little Flatrock Christian church Mission Band will hold an exchange at Hunt's hardware store here Saturday morning.

I. U. STUDENTS FINDING GOLD IN BROWN COUNTY

Pan Out Several Dollars Worth in Idle Recess. Believed to Have Been Washed There by Glaciers

FOUND IN GRAVEL AND SAND

Bloomington, Ind., May 23.—Panning pay dirt for gold along Bear Creek in the idliest recesses of Brown county is the recent experience of Indiana University geological students.

The precious metal is to be found in several counties in Indiana, according to Dr. W. N. Logan, state geologist and member of the university faculty, but there is no distinct gold bearing area.

On their last expedition the students obtained \$5 worth of gold, several garnets and a \$40 diamond it was announced.

The gold, according to Logan, was brought into the state by glaciers and is found mostly in sand and gravel in depressions in bed rocks.

Bear Creek has been worked for gold on various occasions, and it is said John Murreson an old time miner several years ago panned a dollar's worth of nuggets daily.

East St. Louis, Ills.—Tom Kelley stormed into the police station indignantly complaining that a certain bar had refused to sell him whiskey. Somebody had accommodated Tom though, police decided and locked him up.

Detroit—"From now on I'm not guilty. This 'yes judge I'm guilty stuff is the bunk." Thus Mrs. Catherine Duggan pleaded not guilty to a charge of bootlegging, the third she has fa ed.

Every Standard Oil Product a Primary Product

THE term by-product is susceptible of misinterpretation. In the manufacturing activities of the Standard Oil Company (Indiana) there are no by-products. The making of every product is a separate activity. Each is made to conform to a predetermined standard, and is judged strictly on its merits as a primary product.

Lubricating oils made by the Standard Oil Company (Indiana) conform to a standard fixed by lubricating engineers to meet the needs of various types of machinery. The standard being fixed, it is necessary to obtain crude oil of the particular type best adapted to yield the lubricating units which will conform to this standard.

There are many kinds of crude petroleum, each differing one from the other. Even between the oils delivered by different wells in the same field a considerable variance has been noted. One kind of crude oil will yield a maximum of lubricating oil of fine quality; another may yield little, or none, of these fractions, but will yield a maximum of gasoline.

In selecting crudes for lubricants, for instance, the Standard Oil Company (Indiana) has been careful to choose those which have the physical characteristics necessary to maintain the correct lubricating body under working conditions. These crudes are then carefully processed and refined to produce the long line of lubricants manufactured and sold by the Standard Oil Company (Indiana).

Their manufacture is a business in itself. From the choice of materials which go into them, down to the last operation of refining, they are of primary consideration. This care in the selection of raw materials; every step of the refining process, and the fact that products manufactured by this Company are of superior quality is recognized generally. This is evidenced by the fact that during 1921 nearly 25 million gallons of Polarine, the Perfect Motor Oil, were needed to supply the demand.

So with every product refined by the Standard Oil Company (Indiana). Each is made to perform a certain service, and each goes to the consumer with the unqualified guarantee of this Company that it is exactly as represented and that it will give a maximum of service, at a price which is fair to all.

REAL ESTATE TRADE SLOWING UP A BIT
Transfers For Last Period Show Usual Number of Sales. But They Are All Small, Total Considerations Amounting to Only \$66,097.

The real estate trade is slowing up, judging from the transfers of the last period. The usual number of sales are recorded, but the considerations are small; the total amounting to only \$66,097. The largest sale of the period was \$14,000, the sum paid for a farm of eighty acres in Center township. The transfers are as follows:

Charlotte A. Callaghan, to Harry and Jessie A. Sparks, lot 5 and part of lot 4 in Norris Brothers' addition to Rushville, \$2100.

Sarah A. Jackson to Walter E. and Cora S. Thorpe, lot 68 in Payne et al., trustees' addition to Rushville, \$3,000.

Goldie L. and Albert F. Moorman to Jesse J. Grigsby, part of lots 43 and 44 in the original plat of Rushville, \$1 and exchange of real estate.

Jesse J. Grigsby to Lemuel W. and Martha W. Warren, et al., part of lots 43 and 44 in the original plat of Rushville, \$4500.

Alma and Richard A. Flechart to Edwin R. Casady lot 35 in Payne, et al. trustees' addition to Rushville, \$3,000.

Edwin R. and Inez E. Casady to Sarah A. Casady lot 35 in Payne, et al., trustees' addition to Rushville, \$3,000.

Hattie and Jasper Creskmore to Walter E. and Anna Clarkson, part of lot 191 in Tingley and Bridge's addition to Rushville, \$2,000.

John Geraghty to Rushville Furniture Company, lot 11 in Stewart and Tompkins' addition to Belmont, Rushville, \$1600.

James T. and Laura C. Arbuckle to Charles W. and Mary F. Wagoner, lots 4, 5 and 6 in Belmont addition to Rushville, \$500.

Charles W. Wagoner and Mary F. Wagoner to James T. Arbuckle, lot 56 in Berkeley Park addition to Rushville, \$195.

James M. Brown, executor, will of James M. Gwinno to Otto F. Busch, part of lot 107 in the original plat of Rushville, \$4500.

Raymond Finney to Frank and Oma L. Webb, one acre in Ripley township, \$600.

Leander and Anna Little to John B. Miller, south half of lot 12, and E. G. Sexton's heirs' addition to Rushville, \$1.

Emie M. Stevens to John T. Sumner lot 35 in Stewart and Tompkins' addition to Belmont in Rushville, \$200.

Alva L. and Lottie E. Cole to Lora Bebout, 80 acres in Center township, \$14,000.

Herbert C. Jones, trustee estate of Julius J. Theobald to George Haehl, 60 acres in Walker township, \$7500.

Ora E. Wilson, et al. to Frank H. and Derby Green, .0274 acres in Rushville township, \$50.

Elihu Prigg, et al., trustees Arlington East Hill Cemetery association to Walker L. West, west one-half of lot 20 in section four of the Cemetery, \$25.

Clifford C. and Dean Travis to Leonard Wewee, 80 acres in Union township, \$11,500.

Isaac and Laura E. Seright to Charles W. Rardin, lots 18 and 19 in Earl City, Anderson township, \$200.

Charles W. Wagoner, et ux, to John J. and Minnie Gabret, a lot in Rushville, West Third street, \$875.

John N. Edmondson to Walter R. Thomas, lot 38 in Belmont addition to Rushville, \$200.

Clarence C. and Fannie M. Maple to John H. Carroll, two and one-half acres in Noble township, \$3,400.

Maggie and Pleasant A. Newhouse to John Knefel, lots 285 and 286 in Payne, et al., trustees' addition to Rushville, \$1,000.

Walter R. Thomas and Iva E. Thomas to John N. Edmondson, et al., lot 70 in Stewart and Tompkins' addition to Belmont in Rushville, \$1200.

Ira Summerville, adm'r estate of Samuel O. Norris to trustees of Milroy Lodge, 139 E. & A. M. a part of lot 3 in E. T. Bussell's addition to Milroy, \$2550.

Frank and Addie Pearsey to Mary R. Stewart, a parcel of land in Rushville township, \$250.

Mr. and Mrs. Mike Kyser, Mr.

AMUSEMENTS

Lydia Knott Coming Soon.

Lydia Knott plays the mother, Ma Baseom, in the Rex Ingram production of "Turn to the Right," the photoplay from the John Golden stage success by Winchell Smith and John E. Hazzard, showing at the Princess theatre on Wednesday and Thursday.

This is Miss Knott's third appearance in maternal roles for Metro. She was seen in the east supporting Alice Lake in "Should a Woman Tell?" and the same star's newest screen play, "The Infamous Miss Revell." Miss Knott's characterizations of mothers in several Charles Ray pictures, and her portrayal of the title role of "Mrs. Wiggs of the Cabbage Patch" on the stage have won her a wide popularity on the screen. A quarter of a century ago she was a leading woman on the stage, creating the role of Lydia in "Quo Vadis."

Last Showing at the Mystic.

Onion, see the West, young man. It certainly is in "Man To Man," the Universal-Jewel production at the Mystic theatre for the last time today. The broad sweeps of unfenced grazing kingdoms of Arizona and California furnished the background against which Harry Carey and a strong cast of players were photographed in the action of a virile story.

A stampede of five thousand head of cattle gives enough thrill to the spectator to prove that Stuart Patton, the director, hasn't lost his pep since he directed "Conflict," Priscilla Dean's amazing Universal-Jewel starring vehicle, which provided theatre-goers with a whole flock of thrills.

Opposite the star in "Man To Man" Lillian Rich shows what two years in pictures can do to a young musical star. She is a real "trouser" by this time, and her work gets the meaning of the role satisfactorily across.

George C. Hull prepared the scenario for the screen version and Stuart Patton directed it. In the picturization none of the thrill element of the book was discarded.

Harry Carey is the star of the picture, and something worth seeing may be expected of him, remembering his "outcast" roles in "Overland Red" and "Sundown Slim."

Alfred Allen, of "Hell Morgan's Girl" fame, is said to have another Hell Morgan role as "Hellfire" Packard in "Man To Man." Willis Roberts finished a sympathetic characterization in the picture the day before his death.

Others in the cast are Harold Goodwin, May Giraci and Charles LeMoine.

and Mrs. Walter Phelps, Mr. and Mrs. Russel Phelps and son Harold, Mr. and Mrs. Fred Addison, Miss Harriet Rawls, Bert Sharrer and John Gates and son Lennard of Rushville were visitors here Sunday.

Mrs. Hezekiah Clark is visiting her son in Connersville.

Miss Alta Carfield is assisting at the library at present.

Mrs. Glen Kaler and Pauline Addison spent the past week with Mrs. M. J. Jackson of Greenfield.

James Perkins and family were visitors in Knightstown Saturday.

Thomas Addison of Arlington is working in Winfield's meat market here at present.

The Rev. F. W. Sumner and family were calling on friends here Friday.

Jesse Siler spent Sunday with Mr. and Mrs. Jesse Reddick.

Walter Addison and family spent Sunday with Mr. and Mrs. Frank Addison of Arlington.

Thomas Cooper and family have moved to Southern Indiana.

Miss Sharlee Kyser is visiting her grandparents, Mr. and Mrs. Roscoe Hiatt of Newcastle.

Mrs. V. L. Tetrick has been quite ill for the past week.

The Mill ball team here plays Knightstown at Knightstown Sunday.

GIRLS! LEMONS

BLEACH SKIN WHITE

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin. Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

READY TO RECEIVE CORN ENROLLMENT

Farmers Wishing to Enter Five Acre Growing Contest Urged to Have Names in by June 10

FEE OF 50 CENTS IS REQUIRED

County Agent Points Out That All That is Required is Field be At Least Five Acres

The county agent's office announces that it is ready to receive enrollment in the Five Acre Corn Growing Contest for 1922. As the enrollment must be sent into the State Corn Growers' Association by June 15, it is necessary that those who wish to go into the contest have their names and membership fee in the hands of the county agent by June 10.

The only fee that is required this year is 50 cents which pays for the contestants membership to the Indiana Corn Growers' Association. This organization gives suitable medals to contestants who grow 75 or more bushels to the acre on their contest plots. These membership fees are used to help pay for the medals.

A contestant that succeeds in growing 100 or more bushels of corn to the acre on his five acres will receive a gold medal; those that grow 85 and less than 100 bushels will receive a silver medal and a bronze medal will be awarded for a yield of 75 and under 85 bushels. These medals are mounted on silk watch fobs and make attractive awards which the winner will be proud of. Fifteen Rush county farmers com-

FARMERS TO HAVE SEED CERTIFIED

County Agent Has Received Copy of Revised Rules Governing Certification of Seeds in State

PROVIDES BETTER SUPPLIES

Hoped Plan of Inspection Will Discover Better Types and Bring Improved Seeds

The county agent announces that he has received a copy of the revised rules which will govern the certification of seeds in the state this year. A number of farmers in this county have expressed their interest in having seed certified this year and it is expected that the men who had their seed inspected for certification last year will continue in the work this year.

The seed certification work in Indiana is carried out under the authority of the Indiana Corn Growers' Association and the object of this organization in getting behind this work is to provide for better supplies of seeds of high quality. Indiana has been far behind other states in this respect and it is hoped that the plan of inspection and certification will discover the better types and help to stabilize the varieties used within the communities and eventually bring improved seeds to every farm.

It is not expected that a large number of farmers in one county will go into the business of pure seed production, but it is hoped that in Rush county a few sources of good seed will be established for each

SUMMER SPRAY FOR SCALE INFECTIONS

Control for the San Jose Scale Should be Started During the Dormant Season, Experts Say

FORMULA FOR THE SPRAY

Purdue Head Says That Weather Conditions During Winter and Spring, Increased The Scale

Favorable seasons, which have offered conditions for the development of a maximum number of San Jose scale, mild winters reducing winter mortality, ineffectiveness of natural enemies, and possibly other conditions have been responsible for an unusual increase of San Jose scale in Indiana, particularly in the southern half of the State. In addition the wet spring has prevented as thorough spraying with the dormant spray as was necessary to check the increasing scales. As a result of these various favorable factors the scale now threatens to destroy many trees, and possibly many orchards unless checked before the next dormant spray can be applied.

The time to spray for the San Jose scale is during the dormant season, particularly in the spring before the foliage comes out, and no summer work will offset neglect of winter treatment in badly infested orchards. However, we are confronted with the situation of many orchard trees entering the growing season badly infested with scale. Experiments conducted by the Bureau of Entomology, U. S. Department of Agriculture, in different years and

Rural Health

BY GRACE EWING
County Red Cross Nurse

What is Malnutrition?

Unfortunately, malnutrition is not an infectious disease like measles or whooping cough which runs its course and is then over. It really is not a disease at all. A medical inspector once described it as "a low condition of health and body substance. It is measurable not only by height, weight, and robustness, but by many other signs and symptoms."

The malnourished child lacks the characteristics of a normal child; of course depending upon the degree of undernutrition. He is usually thin, his skin may have a pale or sallow appearance and there are usually dark hollows or blue circles underneath his eyes. His hair may be dry and coarse, his tongue coated and his bowels constipated. Because the muscles are weak his shoulders are rounded and shoulder blades protrude. Adenoids, enlarged or diseased tonsils and decayed teeth may be present also.

Dr. Emerson, who was one of the first to direct our attention to undernourished children, found an average of five physical defects in a malnourished child to one in a well-nourished one. Inquiry into the living habits of these children always reveals a faulty diet or otherwise defective health program.

Insufficient or unsuitable food and drinks such as tea and coffee instead of milk, is generally conceded to be the chief cause. The first requirement of a growing child is food. Every movement of his body requires energy, and this energy must be furnished by the food he eats. If the foods is insufficient, the body itself

FIRE AT NIGHT PREVENTS LOSS

Where Chicks Are Still Roosting on Floor and Have Tendency to Pile up, Fire Will Prevent Loss

LARGE ROOSTING QUARTERS

Where Many Chicks Are Raised, Important to Get Them on Fresh Ground For Summer Rearing

Some valuable suggestions on the summer care of chicks are offered by L. L. Jones, of the poultry extension staff of Purdue University in the accompanying statement which follows:

There are a few suggestions concerning summer care of chicks which need to be repeated each season. One of the many problems is the question of whether to permit the brooder stove fires to go out entirely. Where the chicks are six or eight weeks old and where there is a tendency to pile up at nights, a fire may save considerable loss. The brooder stove can be shut off during the day so that it will burn very little coal. If shaken down about an hour before roosting time at night, heat can be had without much cost, or labor.

One of the trying things at this season is to go out to the brooder house at nightfall and find the chicks piling up in the corners. Mechanical devices may partially overcome this but the one thing which will do more to help than any other thing seems to be to train the chicks to go on roosts at an early age. These roosts can be placed at an

THE FAMOUS ROUND

WHITE FROST

The Life Time Refrigerator

WHITE FROST refrigerators are constructed entirely of galvanized steel—they cannot rust.

WHITE FROST refrigerators are welded throughout—every seam and joint is air tight and moisture proof.

WHITE FROST refrigerators are insulated with pure, clean and sanitary granulated cork. By a special process this cork is packed into every bit of space between the inside and outside bodies.

WHITE FROST refrigerators are fitted with seamless brass drain tubes.

WHITE FROST refrigerators are fitted with solid brass castings for locks, lock latches, hinges, etc.

WHITE FROST refrigerator fittings are all heavily nickel plated over brass.

WHITE FROST refrigerators are fitted with roller bearing castors. Note how easily it may be moved about.

WHITE FROST refrigerators have been manufactured for over fifteen years.

WHITE FROST refrigerators have been sold in quantities in every civilized country on the globe.

WHITE FROST refrigerators have always given absolute satisfaction wherever sold and under every extreme condition.

WHITE FROST refrigerators are equipped with patented revolving shelves. These shelves are exclusive with this refrigerator. Instead of reaching in for the article desired you bring it to the front without trouble and without any chance of tipping or spilling. They are adjustable for height. They are substantial and will carry six or seven times over any load you may possibly put on them. This one feature puts WHITE FROST ahead and beyond all standard types.

WHITE FROST refrigerator doors and lids are all metal. They cannot warp or swell out of position.

WHITE FROST refrigerators have no corners, cracks, seams or open spaces to allow of accumulation of dirt.

WHITE FROST refrigerators are finished as carefully on the inside as on the outside. Like a smooth china dish—they are easy to clean and keep clean.

WHITE FROST refrigerators are proof against insects and vermin.

WHITE FROST refrigerators are built of the highest grade of material and the workmanship speaks for itself. It is the one and only refrigerator from which you may expect a life time of service.

WHITE FROST refrigerators do not wear out. WHITE FROST refrigerators give the utmost in economy and service.

Your Refrigerator Expense Is Over Forever When You Purchase a
WHITE FROST

Ice Cold Water always on hand. We ask you to see this refrigerator even though you do not need one. It is the last word in refrigerators.

PURDUE JERSEY SETS STATE MARK

Estelle Joan Produces 10,632 Pounds of Milk and 633 Pounds of Butterfat Breaking Record

RECORD NO GREAT SURPRISE

Her Sire Has Four Daughters in Purdue Herd Averaging at Age of 3 Years Nearly 550 lbs. of Fat

Lafayette, Ind., May 22.—A Jersey heifer, Estelle Joan, in the Purdue University herd, recently broke the state record in the senior three year old division, by producing 10,632 pounds of milk and 633 pounds of butter fat, exceeding by over 40 pounds any record that has ever been made in the state by a Jersey at that age. This announcement was made today at the university dairy department.

The heifer freshened some time ago with an excellent bull calf and has started to make another good record this year. In March she made 75 pounds of fat and almost that much in April, indicating another record this year. As a two year old she made almost 500 pounds of butterfat.

"This record was no great surprise because the heifer was good from both the standpoints of the sire and the dam. Her sire has four daughters in the Purdue herd averaging at an age of three years nearly 550 pounds of fat," says a statement from the dairy department. "He is a son of the Imported Jap, the only Jersey Island bred bull with five 1000 pound daughters. Her dam is Purdue's Golden Estella, the present state champion Jersey, who made last year 14,052 pounds of milk and 748 pounds of fat."

Estelle Joan is fed and milked 3 times a day. She receives the best of care and does good work at the milk pail because of the good breeding behind her, the good feed and the good care.

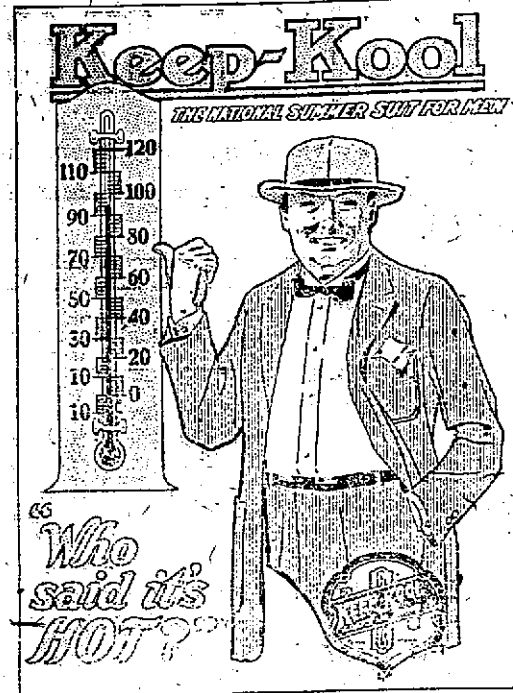

41 BOYS HAVE JOINED RUSH COUNTY PIG CLUB

Boys Are to Meet at County Agent's Office Thursday Afternoon, June 1 to Receive Instructions

\$2 to \$6

three breeders' organizations that are backing the club are working this week to locate and inspect the gilts available for the club to see that a desirable type of pigs are brought in to the members.

The boys are to meet at the county agent's office Thursday afternoon, June 1, at 1:30, to receive instructions for the contest and in order to draw their pigs. The breeders who are furnishing the gilts will have them in Rushville and ready to turn over to the boys at 2:30 p. m.

Pig club work in Rush county is making a steady growth. On May 28, last year, 12 boys received gilt pigs, and this year's club will have 41 members. A big day is planned for the last Saturday in August when these 41 pig club members will show their pig club gilts in a club show to be held in Rushville. Three hundred or more people attended the show last year and it is anticipated that this year's show with three breeds represented will draw a correspondingly larger crowd and attract more interest.

CATTLE CONVENTION MAY 27

Annual Meeting Opportunity to Hear Reports of Feeding Experiments

The Indiana Cattle Feeders' Convention will be held in Lafayette, Saturday, May 27, beginning at 10:30 a. m. This is an annual meeting of great interest to cattle feeders and is the occasion for the inspection of the feeding experiment cattle at Purdue and for the hearing of the report of the results of the feeding trials. A detailed program of the convention has not been received here, but farmers who have attended these conventions in the past know that they can expect something worth while.

Indianapolis —An old store box was on the sidewalk while hundreds of persons passed. But no one looked into it. Then along came James Crane. He found two half-pint bottles—full. A police sergeant saw him. "One hundred dollars and costs," said Judge Wilmeth.

RURAL HEALTH

Continued from Page One

is burned to provide the energy and the loss of weight results. An insufficient breakfast and inadequate supper practically always means too little total food, even though a healthy midday meal may be eaten. Indulgence in sweets and highly seasoned foods, habitual eating between meals, late hours, unventilated sleeping rooms, and lack of exercise may all result in a "finicky" appetite. Whenever the food taken falls below the actual body need, malnutrition is the unending consequence.

Insufficient sleep and other faulty health habits are also responsible for malnutrition, as well as enlarged and diseased tonsils, adenoids,

decayed teeth, tuberculosis and syphilis. If these diseased conditions exist and are allowed to go on uncorrected, no matter how much wholesome food a child eats, there is little chance for him to hold his own, much less for him to gain.

For feeding hogs one bushel soy beans replaces 5 bushels of corn.

SUMMER SPRAY FOR SCALE INFECTIONS

Continued from Page One

places, show that of the sprays tested the sulphur sprays are most efficient for summer sprays from the standpoint of safety to trees, cost, and checking of the scales.

To meet the present emergency, and until experiments can be made with other possible summer sprays, orchardists with scale infested trees are urged to spray with lime-sulphur, using the liquid concentrate at the rate of 1 1/2 gallons to each 50 gal-

lons of spray or the regular self-boiled lime-sulphur. Orchardists must give particular attention to thoroughly coat the twigs and branches since it is necessary for the spray to reach the scales to be effective. The best time to apply for the San Jose scale will be about the time they begin to hatch and a second application two weeks later. It is planned to advise orchardists as soon as the scale begins to hatch in southern Indiana. If convenient the lime-sulphur may be applied with the regular summer spray schedule.

Summer sprays of dilute lime-sulphur are liable to give severe burning of foliage and fruit if applied in hot dry weather when temperature is 90 degrees F. or above in the shade. In heavily infested orchards the efficiency of the lime-sulphur spray may be increased by adding 40 per cent nicotine sulphate at the rate of 1/2 pint to each 50 gallons.

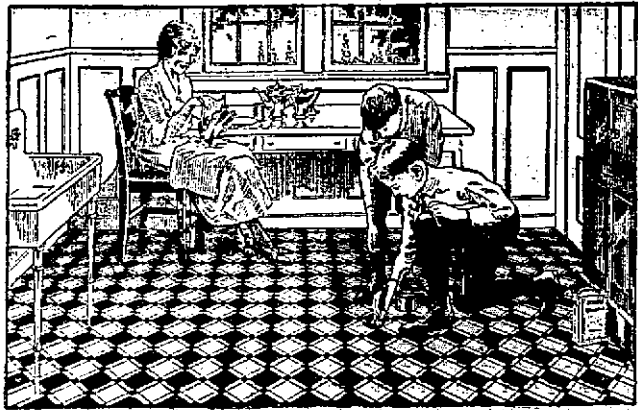

A spray of whale-oil or fish oil soap and 40 per cent nicotine sulphate at the rate of 10 pounds of soap and 10 ounces of nicotine per 50 gallons of water will kill the scales even after they have developed a considerable scale covering.

Every orchardist with scale infested trees should plan to use one of the summer treatments recommended above.

One of the tests conducted by the Bureau of Entomology, U. S. Department of Agriculture at Fennville, Michigan, several years ago is fairly conclusive as to the value of summer spraying with lime-sulphur, and is as follows.

Treatments	No.	No.	%
	apples	apples	uninfest-
		not	ed
		infest-	ap-
		ed	ples
1. Commercial liquid lime - sulphur 1 1/2 gal. to 50 gals. sprayed May 12, 25, June 14, July 25.	137	1,606	92.13

Massey-Harris Two Horse Mower No. 21

Splendid balance obtains. The gearing is located back of the axle where, aided by drawing the machine from beneath the pole, it successfully balances the cutting apparatus. Practically all of the weight is thus placed on the wheels at their centers with the result the traction is increased and neckweight is avoided.

Rough fields are readily moved without straining the cutter bar. This is made possible by adjustments provided for the lifting spring which enable carrying the bar so lightly on the ground that it will go into and out of depressions as nicely as it will follow a level surface.

The knife works without clogging. Its head travels in a close fitting bearing on the inner shoe for which the head is specially milled and its sections are held to their work by a series of steel lips. Everything that comes between the guards is quickly cut and at each stroke the knife head clears the inner shoe caps of any dirt or grass that may have gotten under them.

Self-aligning pitman bearings, consisting of a double spoon at the lower end of the pitman which clasps the ball of the knife head and a double cone at the upper end which swivels in the pitman box, keep the pitman and knife properly aligned at all times. Accordingly, the knife head is never unduly strained and seldom breaks. The pitman bearings or connections are forged steel.

A perfectly lined cutter bar enables the knife to work effectively. Both the guards and bar itself are planed or milled to fit one another perfectly. This assures an alignment that is not otherwise possible to get. Every guard is where it belongs and every knife section makes a perfect shear cut with the ledger plates over which it travels.

tained 2 pounds paste arsenate of lead (1 pound powder) to each 50 gallons of spray, excepting plat 5.

Note. In all summer sprays of lime-sulphur 1 1/2 pounds of hydrated lime to each 50 gallons should be added as a precautionary measure.

READY TO RECEIVE CORN ENROLLMENT

Continued from Page One

pleted the contest last year and three of these won gold medals, four received silver medals and seven were awarded bronze medals. W. L. Booth of Anderson township had the highest yield in the county with 406.1 bushels per acre.

Some farmers have the impression that in order to join the contest they must have a field of exactly five acres, but the county agent points out that all that is required is that the field be at least five acres. Then in the fall when the plot is checked up, the farmer has the privilege of picking his five acres out of any part of the field. Of course, it must be in one continuous piece.

Some interested farmers have been kept out of the contest in the past because they were of the opinion that the checking of the plot will entail a lot of trouble and extra labor. This is not the case, as it is not necessary to husk and weigh the entire plot in order to arrive at the yield. The method that is used is the husking and weighing of one hundred hills, or its equivalent in the case of drilled corn, in three representative places in the field and taking the average. From this weight of the product of a hundred hills and the known number of hills to the acre at the rate of planting seed and from data taken in the plot regarding stand and barrenness and the determined weight per bushel of the corn on the particular plot, the yield can be arrived at to a small percent of error.

Rush county is one of the largest corn producing counties in the state and should make a big showing in this great statewide project. Let's have at least five entries in the contest in each township.

FARMERS TO HAVE SEED CERTIFIED

Continued from Page One

type of seed, so that farmers desiring better seeds will be able to obtain them locally.

Applications for certification of

wheat and other small grain cereals must be in the hands of the secretary of the Indiana Corn Growers' Association before or on June 15, and any one interested in this county should apply at the county agent's office for further information and application blanks. Applications for the certification of corn and soy beans must be in by August 15.

FIRE AT NIGHT PREVENTS LOSS

Continued from Page One

angle in the back of the brooder stove room and should be built with a wire netting just under the roosts so that the chicks can not pile up

underneath. When the stove is removed, flat roosts may be set in the center of the room or wherever seems desirable.

The same problem arises with hen-hatched chicks. A big cause of loss or at least slow growth is piling up of the chicks in the brood coops after the hens have left them. These chicks should be transferred to larger roosting quarters or if this is impossible, roosts should be placed in the brooder coops.

Where many chicks are raised, it is particularly important to get them on to fresh ground for summer rearing. This is usually done at the earliest possible time.

Open Book Methods in Paint-Making

Hanna's Green Seal Paint is advertised so that the public will know all about it. Therefore, the more the public knows about it the better. That's why the exact formula appears on every package.

HANNA'S GREEN SEAL PAINT

is GOOD paint, and the formula proves it. It shows it's made up of the best materials, carefully mixed in just the right proportions. Use Green Seal on YOUR property. It will save you money in the long run.

150,000 HENS IN RACE

Lafayette, Ind., May 23.—More than 150,000 hens are entered in the state wide egg record project which is being carried on again this year by the Purdue University Extension Department in cooperation with County Agricultural agents and farmers associations. A total of 1,560

farmers have their flocks entered, this number extending to 42 counties in the state. Brown county has stepped to the front in this event with 88 entries. Switzerland is second with 74, Harrison and Fulton counties each have 71 farm flocks entered, DeKalb 70 and Kosciusko 60.

"Measure It By The Calendar"

It takes the calendar to prove the worth of paint. Any paint looks good when first put on, but the question is,—will it wear?

HANNA'S GREEN SEAL PAINT

is made for long wear. It sticks to its job through all sorts of changes in weather and temperature. It protects and beautifies your property far longer than an inferior paint could do.

Judged by years of service, Hanna's Green Seal is the cheapest paint there is.

INTEREST SHOWN IN TON-LITTER CONTEST

Nine Rush County Hog Growers Are Attempting To Produce Ton Litters In Six Months.

TOUR PLANNED FOR JUNE 8.

A great amount of interest is being shown in Rush county in the Ton Litter Contest, in which nine Rush County hog growers are attempting to produce litters to weigh a ton at six months of age. A committee was working in the county last week to inspect the litters and certifying to ear markings and nomination of the litters.

On June 8, beginning at 1:30 p.m. Rush County farmers will be given an opportunity to see how this work is being carried on and how the litters are progressing, as a tour is being arranged for that date. On this tour a few of these farms will be

visited and phases of hog production discussed by competent speakers. F. G. King of Purdue will be the principal speaker and will discuss some important question of hog production at each stop on the tour. The full particulars regarding the tour and the schedule of the stops will be given in the farm section of the Republican which will be issued Tuesday, June 6.

COUNTY NEWS

Sexton and Vicinity.

Frank Behymer has returned to his home in Elwood after visiting his sister, Mrs. J. T. Newkirk, here. James Bohannon spent the week-end in Rushville. Mr. and Mrs. Vester Casey were in Indianapolis Saturday. Mr. and Mrs. John Pratt of Newcastle spent Saturday night with their parents, Mr. and Mrs. T. Pratt. Mrs. William Kiser and baby and Mrs. Carol Clifton and daughter of Gings spent last Friday in Con-

nersville, the guest of Mrs. Harry Wright. Mrs. Court Oldham and Mrs. Virgil Longfellow visited Mrs. Fred Newman at Beeson's Station Sunday. Mr. and Mrs. Ralph Conner, Mrs. Brock, Delbert Hobbs, Mr. and Mrs. Harve Bradburn and children attended a family pitch-in dinner Sunday at the home of James Barnes at Rushville, honoring his birthday anniversary.

Mr. and Mrs. William Shobin and children of Gings visited at the home of Mrs. Joyce Sunday night.

Mrs. Enos and Guy Brook went to Richmond Sunday to hear Billie Sunday.

Mr. and Mrs. Fred Meyer and Mr. and Mrs. Martin visited at the home of William Meyer Sunday.

Mary Wilson of Rushville and Roy Evans of near Gings were the Sunday evening guests of Russel and Ruby Bradburn.

INDIANA FARM NOTES.

A difference of from 511 pounds of shelled corn to 931 pounds of gain

put on cattle in the feed lot, due to the kind of ration fed, is shown in a preliminary report of the results for two years of studying the cost of fattening cattle on 186 farms in Delaware, Randolph, Henry Rush, Carroll and Clinton Counties. A copy of the report, giving interesting information on costs, rations fed and results of the study may be obtained free on request to the Farm Management Department, Agricultural Experiment Station, Lafayette, Ind.

The ten farms having the highest profits out of 100 typical Clinton county farms over a seven year period had twice as many acres in crops, 12% more livestock per acre, 20 percent higher crop yields, 54 percent higher returns per animal, and 44 percent more crop acres taken care of by each workman than the average of the 10 farms with lowest profits, according to figures reported by the Farm Management Department of Purdue University from a farm management study in that area.
